

RUSS FORCES MAKE GAINS IN HUNGARY

EVENT OF SPRING WEATHER SEES VIOLENT FIGHTING RE-NEWED IN CARPATHIANS. STUBBORN RESISTANCE

Austrians Put Up Determined Fight Along Entire Line Disputing Every Inch of Russian Advance.

[BY ASSOCIATED PRESS.]

London, April 7.—The military situation in the Carpathians is competing with the prohibition question in the interest of the British public. The cabinet meets today. It is expected that an announcement will be made regarding the new offensive movement. The official communication from Berlin mentions attack after attack and says these onslaughts were repulsed with extraordinary heavy losses for the French. The ground is covered with bodies of the French. The official statement from Paris gives details of the fighting, although it is stated ground was gained in some instances.

The Berlin statement says Germans abandoned the village of Drel Grachten which they captured from the Belgians, according to fire from their artillery to which it was subjected.

No further official information was given out concerning the campaign in the Carpathians. The official statement in the statement of the German press, the East Prussian border. It is said the Russians were repulsed in battles southwest of Memel, and near Augustow. Russian battalions being annihilated.

Two Russian delegates have arrived at Sofia, Bulgaria, to arrange for railway communications between Russia and Saloniki, Greece, and the Sofia dispatch containing this announcement does not explain by what means this could be accomplished as it would involve the use of railways through the Balkans. It is said that the Russian railways are being used to transport military supplies.

In the western arena of the war the French continue their offensive movement in the Carpathians. The Russian frontier. These reports indicate the possibility of a new danger for the Germans holding St. Mihiel, while the advance of the Russian army is regarded in London as threatening St. Mihiel from the north.

The belief that operations in the Dardanelles has been resumed is general in London.

Report on Memel.

A dispatch from Berlin, received here today by wireless, quotes the Russian official report of April 4, 1915, during a raid on Memel, the northernmost point of the boundary of East Prussia, the Russians lost 149 men, and then adds:

It has been ascertained that three hundred Russians were buried at Memel. At Memel and Polangen 506 Russians were captured, including three officers and 430 men, who were transported by rail to Tilsit. Some of the Russian soldiers are being used as laborers. Others are in the hospital there.

Fighting More Violent.

Vienna, via London and Amsterdam, April 7.—The official correspondence bureau circulated the following today:

"The increased violence to be observed in the fighting in the Carpathians is continuing with the advent of fine weather. From both sides the Oudava valley to a point near the Uzk pass, tremendous fighting is going on. Against the local successes achieved by the Russian army, the local successes of the enemy and the former must be as little overestimated as the latter.

The Austrian-German successes on the heights in the Carpathians and the laboring have not waned so heavily in the scale as to justify any expectation of a general decision. Final results in modern fighting mature very slowly.

Blockade Effect Felt.

Berlin, via wireless, April 7.—Certain newspapers today declare that reports are beginning to be received from the German coast that the blockade of the German coast is having effect in England.

In addition to daily announcement of sinking of vessels, reports have been received of increasing increases in the price in England of objects necessary to maintenance of life, many of which appear to be above the prices prevailing in Germany.

Turks Not Alarmed.

SAYS VON DER GOLTZ

Embarrassment of Dardanelles Does Not Cause Worry Says German General.—Visits Emperor Joseph.

[BY ASSOCIATED PRESS.]

Vienna, April 7.—General von der Goltz, on his way back to Constantinople from Berlin, stopped in Vienna and saw Emperor Francis Joseph. Late he spoke to a reporter of his visit.

General von der Goltz, in a serious mood, but resolute and very confident.

Regarding the situation in Turkey, von der Goltz said:

"Turkey today is better prepared than ever for war. She has a million and a quarter of well trained men in addition to several hundred thousand reserves for any emergency. As the entente powers are interested politically in exaggerating news, the destruction of the outer forts at Sedd-el-Bahr and Kum Kaleh has not been particularly favorable to them, was made to appear a victory. How Hittler, Constantinople was alarmed by these attacks may be seen from the fact that the Sultan remained in his palace a shuttle from the least effect upon the population."

War News Summary

Another attempt to force the Dardanelles is under way, according to official announcement from Constantinople which state a cruiser and torpedo boat were struck by shells during a bombardment of outer forts on Monday said to have been without result. The Turkish war office also reports the resumption of hostilities in Caucasus campaign. It announced a Russian frontier force was driven from Turkish to Russian territory and that the occupied several Russian towns.

The Rome correspondent of Paris newspaper telegraphs that Italy and Serbia are at the point of concluding an agreement under which Italy's participation in the war may be considered imminent.

A furious assault of German positions between the Meuse and Moselle is being made by the French in continuation of their new offensive movement. The official communication from Berlin mentions attack after attack and says these onslaughts were repulsed with extraordinary heavy losses for the French. The ground is covered with bodies of the French. The official statement from Paris gives details of the fighting, although it is stated ground was gained in some instances.

The Berlin statement says Germans abandoned the village of Drel Grachten which they captured from the Belgians, according to fire from their artillery to which it was subjected.

No further official information was given out concerning the campaign in the Carpathians. The official statement in the statement of the German press, the East Prussian border. It is said the Russians were repulsed in battles southwest of Memel, and near Augustow. Russian battalions being annihilated.

Two Russian delegates have arrived at Sofia, Bulgaria, to arrange for railway communications between Russia and Saloniki, Greece, and the Sofia dispatch containing this announcement does not explain by what means this could be accomplished as it would involve the use of railways through the Balkans. It is said that the Russian railways are being used to transport military supplies.

EXPECT PRINZ EITEL TO LEAVE PORT SOON

Customs Collector States That Internment of German Cruiser Has Not Been Considered.

[BY ASSOCIATED PRESS.]

Newport News, April 7.—We are not yet thinking about internment of the Prinz Eitel Friedrich now," declared Customs Collector Hamilton today, after he had waited expectantly throughout the night for the German collector to speak. The collector spoke he was preparing again to visit the ship on orders from Washington, although he had been told by Commander Thierschens and members of staff last night.

This declaration that the government was not at this time concerning itself of the matter of internment of the Prinz Eitel was the first authoritative statement concerning the matter in many days. Internment, the collector said, would be a simple process when occasion arises.

It was stated that the Prinz Eitel had not been interned early today was the continuation of the ban on departure of merchant ships of the allies.

Customs officials here and at Norfolk Island, yesterday from British ships asking for permission to leave were told they could not leave port until further notice and no assurance was given as to when they might sail.

Local business and shipping are asking for some definite move, maintaining the situation is injurious to business of the port. Officers and men of the Eitel have not had shore leave today.

Gets Up Steam.

Shortly before three o'clock the Eitel hoisted a line of signal flags and blew her whistle. One shrill blast and the ship was pouring from both her funnels.

Hold Many Ships.

Twenty-five merchant ships flying under flag of allies and many of them loaded with goods, were held up here today and refused clearance pending developments in case of the German cruiser Prinz Eitel Friedrich.

FLYERS DROP BOMBS ON GERMAN CITIES

Two French Aviators Pursue Military Train Into Black Forest Doing Some Damage.

[BY ASSOCIATED PRESS.]

Geneva, Switzerland, April 7.—Two French aviators pursued a German military train yesterday from Murbach to Villigen, in the Black forest. They damaged the railway and stations along the line. On their return they dropped bombs on Murbach and Neuchâtel.

A French biplane, being pursued by German aviators, lost its way in the mist last night and crossed the Swiss frontier, landed near Fomrigny. The pilot said he and his companion had come from Belfort but had not been able to return. The aviators were appeared before Colonel Audouard. Neither of the men was injured. They will be interned.

JUDGE IS ON TRIAL WITH FOUR OTHERS FOR MURDER.

Wichita Falls, Tex., April 7.—Sensational possibilities in the trials of Judge E. A. Fry, Pete Fry, R. M. Todd and John Lischke, which opened here today, attracted a large audience. The four were indicted in connection with the shooting of Deputy Sheriff Cherryholmes at Graham, last February, when a party of armed, masked men broke into the courthouse there. Cherryholmes and another man were guarding records in the indictment of Judge Fry, new state representative, for alleged embezzlement while on the county court bench. Pete Fry, a brother, was afterward found in wounded condition in Judge Fry's house, along with Todd, also wounded, and Lischke.

The case went to Wichita Falls on a charge of murder. Some of the ablest counsel in the state were employed by the defendants. Friends of Lischke, who is an expert locksmith, said that he was hired to go to Graham and make a safe. They assert he was innocent of any complicity in the attack on the courthouse.

THOMPSON ELECTED MAYOR OF CHICAGO BY 138,891 MARGIN

Women's Vote Help to Name Republican Candidate By Largest Majority Ever Recorded.

[BY ASSOCIATED PRESS.]

Chicago, April 7.—Complete returns from yesterday's municipal election showed that William Hale Thompson, republican, was elected mayor by a plurality of 138,891 the largest plurality ever given a candidate for office in Chicago. His majority over all was 111,708.

Out of a total registration of 798,017 there were cast for mayor 669,891 votes, divided as follows: William Hale Thompson, republican, 380,683; Robert M. Schwitzer, democrat, 251,192; Frederick J. Sedgwick, socialist, 28,226; John H. Hill, prohibitionist, 36,801.

Heavy Women's Vote.

Sixty-one per cent of women's vote was cast for Thompson, according to estimates by election officials and 36 per cent of the women vote cast for Schwitzer. It was the first time women voted for mayor in Chicago. The total number of votes for Thompson was 144,568; for Sedgwick, 89,713; for Stedman, 7,813; for Hill, 1,702, a total of 243,797.

For the first time in the history of Chicago a negro, Oscar De Priest, was elected to serve in the city council. He was chosen from the Second ward, which is thickly populated by negroes. He was a former county commissioner. Michael (Minky) Dink Kenna, democrat, who has been an alderman from the First ward for twenty years, was re-elected by a plurality of 4,000.

The city council will be 33 democrats, 31 republicans, 2 progressives, 3 independents and 1 socialist.

Warns Crooks to Move.

"The crooks had better move out of Chicago before I am inaugurated," said Mayor-elect Thompson in a statement. "This town will be clear of criminals before the new administration is many weeks old, that the one who will understand Chicago is a safe place to come to."

"I go to the mayor's office absolutely free, owing no obligations to any faction. This is not to be a political administration in any way. I shall ask the highest men in Chicago to become members of my cabinet, even though their salaries as cabinet officers will be small."

It was given to the republican victory was given to the republican victory by Mrs. Thompson, wife of the mayor.

Revision of the Police Returns Shows

that the next city council will be made up of 34 republicans, 29 democrats, 3 independents, 2 socialists and 2 progressives.

Twenty-four republicans, 12 democrats and 2 socialists were elected yesterday.

St. Louis Goes Republican.

St. Louis, April 7.—The entire republican ticket was elected yesterday by majorities ranging from 18,000 to 32,000. This was the first election held under the new charter.

A. H. Becker, republican nominee for president, defeated Francis Curdick, democrat, by more than 22,000.

MUSIC PROVES AN AID TO THE RECOVERY OF SOLDIERS IN HOSPITALS.

London, April 7.—(Correspondence of The Associated Press)—Music is an aid in the recovery of mental faculties lost as the result of harrowing experiences at the front, is being used in the hospital for Paralysis, Malda-Vale, London.

The hospital authorities point to the case of Bondsman A. G. Reynolds of the 2nd Wiltshire Regiment, as typical of this class. He was buried in a trench for three weeks after the explosion of a German shell which killed him. He was brought to the hospital and for three weeks afterwards his mind was a complete blank. He "treated" with the piano and other musical instruments. He began to improve immediately, and to assist the treatment, pieces of music which had been played to him were left in his room. He was gradually able to read the musical notation and later the ordinary printing.

TO AWAIT A REPORT ON THRESHER DEATH

Ambassador Gerard Will Transmit Official Statement to Washington at Once.

[BY ASSOCIATED PRESS.]

Washington, April 7.—The report of the command of the German submarine which sank the Falaba, is expected to form part of the evidence upon which the state department will have a duty of the facts surrounding the death of Leon C. Thresher, the American mining engineer drowned when the ship went down.

Instructions to Ambassador Gerard at Berlin to transmit the official report has been sent. Ambassador Page and Consul General Skinner at London are still gathering evidence from British sources and survivors of the Falaba.

TRUST COMPANY SUBJECT TO A COURT PROBING ON WOMAN'S ESTATE CHARGE.

Milwaukee, April 7.—Charges made by Mrs. Alice Kane Sanderson Holden that the \$250,000 estate of her father, Alonzo L. Kane, dwindled to \$57,000 under the trusteeship of the First Trust company, will be aired in court today in the hearing on her petition to compel the company to give an accounting opens today.

The Trust company has filed a separate suit in circuit court, requesting the court to construe the trust deed, to wind up the estate and release the company from its trusteeship. The company contends that the management of the estate has been fraught with difficulties, owing to the expenses of maintaining the various properties, the payment of annuities and the relatively small income from the estate. It contends that it was forced to pay some of the annuities out of the principal and frequently had to advance money. This is offered in explanation of the present value of the estate. Mrs. Holden, her husband, and their four minor children are defendants in the suit.

Mrs. Holden in her petition to the court alleges that she was kept in ignorance of her legal rights in the estate before she was of age, and that the agreement reached by the legatees in Kane's will regarding distribution of the estate, is void. Judge Sheridan is conducting the hearing.

ITALY AND SERBIA SIGN AN AGREEMENT REGARDS TERRITORY

Entry of Italy into European Conflict Regarded As More Probable Following Significant Move.

[BY ASSOCIATED PRESS.]

Paris, April 7.—Italy and Serbia are about to conclude an agreement, telegraphs the correspondent, of the Excelsior at Rome, upon the basis that Italy will not oppose Serbia's occupation of territory, giving her an outlet to the Adriatic on conditions that this territory be not fortified.

"If this Italo-Serbian Agreement is signed this week, as is expected," the correspondent says, "the entry of Italy into the European conflict may be considered imminent."

To Cross Bulgaria?

Sofia, Bulgaria, April 7.—Two Russian delegates arrived here today to conclude arrangements with Bulgarian railroad for the establishment of direct communication between Russia and Saloniki, Greece.

Quarantine Against Serbia.

London, April 7.—Charles Vopicka, the American minister to Roumania, Serbia and Bulgaria, has advised Ambassador Page from Bucharest that Bulgaria has established a quarantine against Serbia on account of the typhus.

THREE SHIPS HELD AT BRITISH PORTS

Scandinavian Steamers and One Greek Vessel Held For Examination Of Cargoes.

[BY ASSOCIATED PRESS.]

London, April 7.—The Norwegian steamer Stavan, which sailed from New York March 10, for Gothenburg, Sweden, and Swedish steamer Japan from Yokohama, Japan, for Gothenburg, Sweden, have been held by a naval escort Saturday for examination of their cargoes.

The Greek steamer Spyr of Valianos from Savannah, March 10, for Rotterdam, with cargo of cotton, is detained at Palamou.

Sweden Indignant.

Stockholm, April 7.—The seizure by the Germans of Swedish steamer Engstrand, which was held by a naval escort, has caused indignation in Sweden. The Swedish government in defense of Swedish rights particularly since the vessels belong to Naval Minister Bronstrom. Urgent representations have been made to Germany as to desirability of releasing the vessel.

The newspapers express indignation over what they term "this inexplicable blockade of a neutral country." If such a blockade be established they ask to what extent will belligerent powers proceed to take property belonging to a country which unquestionably is neutral.

SUBMARINE HAS PAID ITS TOLL FOR RAIDS

German Admiralty Concedes That U-29 Was Victim As Reported.—Has Record as Raider.

[BY ASSOCIATED PRESS.]

Berlin, April 7.—The German admiralty has given out an official statement in which the loss of the submarine U-29 is accepted. The text of the communication follows:

The submarine U-29 has not returned from its last cruise. According to a report of the British admiralty of March 26, this vessel, with her crew, was sent to the bottom. She therefore must be regarded as lost.

The corrections show that the submarine U-29 was general believed to have been commanded by Captain Otto Weddigen, who had charge of the U-29 when this submarine sank the British ship, the Lusitania, on September 5, 1915. The face of the captain was familiar to Englishmen, and he asked the German if he was not Weddigen. This the captain admitted. In referring to his new command, U-29, he said it was the last word in German submarine construction.

She displaced 800 tons and could make 18 knots on the surface and 10 knots submerged. On March 26, of March she made a raid in the channel and was successful in sinking four British and one French steamship and damaging other vessels.

CHOSEN TO HEAD TRADE COMMITTEE

Harry A. Wheeler.

Harry A. Wheeler, of Chicago, former president of the Chamber of Commerce of the United States, has been chosen by that body to head the committee appointed to co-operate with the new federal interstate trade commission on business matters affecting the welfare of America.

The other men to serve with him are Guy E. Tripp of the Westinghouse Electric company and W. L. Saunders, president of the Ingalls Shipbuilding company of New York. The appointment of this committee is due to the desire of the national chamber to assist the new commission in every way possible.

Washington, April 7.—Winter wheat conditions in the United States are normal, against 95.6 of last year and 87.6 the ten year average, the department of agriculture announced today. There was a decline of 5.1 of a point last December compared with the average decline of 2.7 of last ten years.

The condition was 89.5 of normal against 91.3 last year and 90.1 the ten year average.

CONSOLIDATION BILL UP FOR HEARING IN ASSEMBLY THURSDAY

Measure Seeks to Connect Various State Departments into Public Welfare Commission.

[BY ASSOCIATED PRESS.]

Madison, Wis., April 7.—The big consolidation bill of the legislature has been slated for hearing next Thursday by the assembly committee on state affairs. This bill seeks to consolidate the state board of health, the dairy and food department, the board of health, the inspector of illuminating oils and the state treasury agent's office under the direction of a single commission. This commission shall be known legally as the public welfare commission and will consist of five members, appointed for a term of six years at a salary of \$4,000. The terms of the appointees shall be so arranged that one term will expire every year. It is this department that is given the complete charge of all the instructional service of the state. Gov. Philipp declares that if this bill is enacted into law the state will have far better inspection service at nearly one-half the cost of the present state inspection service.

All state fair bills will be up for further hearing next Tuesday before the assembly committee on agriculture. This hearing will include the Bradley bill to abolish the present state board of agriculture and the bill submitted by the special legislative investigating committee to consolidate four departments dealing directly with agricultural subjects. On Wednesday the committee on education will consider the Whitcomb bill and, in the present student council at the university and on Thursday, April 15, there will be a hearing on the Billington bill to repeal the present law for the support of the university and substitute appropriations. The Hart, Weber and Ballard bills to correct the evil of fraudulently advertising for men, without notifying them that a strike is in progress, will be heard by the assembly judiciary committee one week from today. The Killia bill to give Milwaukee county greater control over its hospital and the bill to create the positions of auditor and purchasing agent in Milwaukee have been noticed for hearing on April 15, by the assembly judiciary committee. The bill to give cities control of their utilities to the exclusion of the railroad commission, will be heard on Wednesday, April 14, by the assembly committee on transportation.

SUPERIOR IS "DRY" ON RECOUNT TODAY

Error Made in Count Last Night.—Expect Saloon Interests to Demand Recount.

Superior, Wis., April 7.—Superior, second city in Wisconsin, which suddenly from the wet to the dry column today when an error was discovered in taking counts from voting machines in two precincts of the Seventh ward. The corrections show a majority of 51 for no license. It is expected a recount will be demanded by saloon elements.

One hundred and fifty saloons were closed by the new law. Their present license expires July 1.

FURNISH SUPPLIES TO BRITISH SHIPS?

Government Officials at New York Investigate Persistent Rumors.

[BY ASSOCIATED PRESS.]

New York, April 27.—In spite of official denials from British sources that British ships outside of Sandy Hook have received supplies from this port, the United States government has said today that the investigation based on the evidence of this effect submitted to United States district attorney's office by collector of port and assembly of New York, Mr. Carstaphen has been placed in charge of the investigation.

BIG CROWD GATHERS AS WILLARD SAILS

New Heavyweight Champion Leaves Havana Today Amid Applause of Vast Throng.

[BY ASSOCIATED PRESS.]

Havana, Cuba, April 7.—Jess Willard, new heavyweight champion of the world, sailed for the United States via Key West today. The crowd, which gathered at the dock to see him off, interfered with the sailing arrangements, and the time set for sailing which was nine o'clock, was deferred until noon.

WHEAT JUST ABOVE TEN YEAR AVERAGE

Condition of Crop Not So Flourishing as at This Time a Year Ago, Government Report Shows.

[BY ASSOCIATED PRESS.]

Washington, April 7.—Winter wheat conditions in the United States are normal, against 95.6 of last year and 87.6 the ten year average, the department of agriculture announced today. There was a decline of 5.1 of a point last December compared with the average decline of 2.7 of last ten years.

The condition was 89.5 of normal against 91.3 last year and 90.1 the ten year average.

800 TRAIN HITS DELIVERY TRUCK AT CHICAGO

[BY ASSOCIATED PRESS.]

Chicago, April 7.—The Pond du Lac express, southbound on the Milwaukee, St. Paul and Northern Pacific, struck a delivery truck near suburban station at Altenhau today, carried it on the pilot 400 feet and killed its driver. No one else was injured.

The gasoline tank of the truck exploded and set fire to a string of box cars and the station, but the blaze was extinguished without much damage.

Name Left Out: The name of Mary Sheridan was omitted from the Roll of Honor of the sixth grade, Garfield school, published in last evening's issue.

LOSS OF OFFICERS, WASTAGE OF GUNS HANDICAP GERMAN

Eighth Installment of French Review of War Treats of Depleted Condition of Kaiser's Forces.

[BY ASSOCIATED PRESS.]

London, March 27.—(Correspondence of The Associated Press)—The eighth installment of the French review of the war previous chapters of which have been given by the Associated Press, takes up the German losses of officers, the wastage of guns and projectiles and "the moral wastage of the German army."

Losses of Officers.

The chapter on losses of officers begins with the statement that conditions of the German army in the German army is high. The proportion of officers and not only of officers by profession, has been enormously reduced, it says, and reports made in December showed that in a total of 124 companies, active or reserve, there were only 49 officers of the active army. The active regiments have at the present time, according to the review, an average of 12 professional officers, the reserve regiments nine to ten, the reserve regiments of new formation 6 to 7, and it is to be remembered that these officers have been drawn from the ranks of the army corps and if the war lasts ten months, it continues: "She will reduce almost to nothing the number of professional officers in each regiment a number which already is very insufficient."

The French report points out that on the other hand all the French regiments have been constantly kept at a minimum figure of 18 professional officers per regiment. At the same time it admits that commanders of German corps, commanders of active battalions and officers attached to the command army corps, are officers by profession.

Wastage of Materials.

The French report then addresses itself to wastage of material. Discussing the wastage of guns it says: "It is easy to ascertain that German losses in artillery. On December 28 the 66th regiment of artillery engaged in the battle of Verdun were used up. This figure is extremely high for a single regiment. The same facts have been ascertained as regards heavy artillery. On December 21 and 22 seventy-seven guns of heavy artillery which were no longer serviceable were sent to Cologne. These movements, which are not isolated facts, show how ill the German army has resisted the ordeal of the campaign."

Other proofs moreover are decisive. For some weeks we have noted markings on the hands of a great number of shells, the seventy-seven guns. When these shells were compared with those of shells fired three months ago, it is plain beyond all question that the tubes are worn and many of them require to be replaced.

New Corps Atke Guns.

"This loss in guns is aggravated by the necessity which has arisen of withdrawing from the original army corps for the guns assigned to recently formed corps or those in the course of formation. Several regiments of field artillery have in fact had to give up two batteries.

"The phenomenon, wearing out of material and drafts upon the reserves, will eventually result either in the reduction of batteries from six to four guns, a reduction of number of batteries in the army corps, or in a partial substitution for the 77 of 9 centimeter cannon of their own pattern the presence of which has been perceived at the front."

RESENTS THE TONE OF AMERICAN NOTE

German Newspaper Charges That United States Continues to Show Partiality to England.

[BY ASSOCIATED PRESS.]

Amsterdam, April 7.—Commenting on the latest summary of the American note to Great Britain the Cologne Gazette says:

"It appears to be a note against Germany rather than a note against England, and it is formed that England may leave it unmoved without having reason to fear any serious steps from the American government."

Against Germany, however, although in a laudable manner, the approach is made that does not observe the principles of warfare as recognized by civilized countries. The note in fact gives the impression of anti-German propaganda.

"This ends this second American protest against the sea tyranny of England as pitiful as did the first. America submits to every English demand, and it is at the same time she continues eagerly to supply our enemies with arms and other material and even advances them money for these supplies."

NO TIME FOR PEACE PANKHURST DECLARES

British and French Suffrage Organizations Will Not Join in Women's Conference at The Hague.

[BY ASSOCIATED PRESS.]

London, April 7.—Mrs. Emmeline Pankhurst announced today that the women's Social and Political Union and the other suffrage organizations in Great Britain and France had decided not to participate in the forthcoming women's conference at The Hague to consider the question of peace.

In this connection the British militant leader said:

"This movement is well meaning but mistaken. Those running this conference are political hypocrites. Pro-Germans are working hard in this direction here and in neutral countries, and much German money is being circulated in America, but this is not the time to talk peace."

ADJOURN CASE: The civil case of James Flood versus John McGinnity was adjourned in the municipal court this morning until April 19.

LATEST MOVE TO DISCREDIT PHILIPPSIDEA

ULTRA PROGRESSIVES TRY TO PUT OVER POLITICAL MOVE AT TUESDAY'S ELECTIONS.

ABSURD PROPOSITION

Attempt is Most Laughable as Questions Asked are on Questions There is No Debate On.

(By Special Correspondent.)

Madison, Wis., April 7.—The return to Wisconsin of Senator La Follette this week was marked by the latest attempt to discredit the administration of Governor Philipp on the part of the ultra progressives, which has made the little coterie of politicians who are clinging to the tax-grabbing regime of the last decade the laughing stock of the capital.

The scheme, for which the senior senator is given full credit, although the work has been done by others, was to secure a popular vote through the holding of a series of town meetings called throughout the state for Tuesday, April 6th, on questions now before the legislature. That kind of a move, under the right circumstances, would be a legitimate enterprise on the part of legislators. In this case, however, there are two reasons why the referendum sought has excited the indignation of state officials and others who have heard of it.

One is that the questions submitted to the voters are three over which there is no dispute and which will not be the subject of any argument in the legislature. The other reason is that the questions are so framed that there can be but one answer to them. The voter in the town meeting, by the casting of his vote, republican, democrat or socialist, will have but one way to vote, and that will be to favor the resolutions proposed.

The general scheme is to secure an avalanche of resolutions from the fifteen hundred town meetings in the state, showing a unanimous support for the propositions set up by the ultra progressives in their town meetings. The resolutions are worded so that they contain an attack upon the present administration, but the questions which is put up to the voter is a matter of general fact, and it is to receive an affirmative vote, although it means nothing in the final analysis.

Six La Follette legislators who might be called the last of the old guard have entered upon the task of saving the state from the economy and efficiency program of the present administration. They are Senators Otto Goodrich, J. C. Hanson, George B. Skogmo, the bell-wether of the flock, which is trying to obstruct the program voted for the people last November, and Assemblymen J. C. Hanson, floor leader of the ultras in the assembly, Newcomb Spoor who aids Mr. Mortenson in debating by making objections in debate, and J. C. D. Ballard who was the first Wisconsin citizen to grasp the hand of Senator La Follette when he returned several days ago to clear the debris of the Blaine campaign and to look after his own dilapidated forces.

The following letter was sent out by these gentlemen, with a stamped envelope addressed to Senator Boshard:

"To the Town Clerks and Voters: 'Will you kindly have the enclosed resolutions read at your town meeting next Tuesday, April 6th, and see that a vote is taken upon each resolution.'"

The three resolutions explain themselves. They relate to questions now pending before the legislature. "We believe the right of petition guaranteed by the constitution should be freely exercised by the people. Matters are of vital importance to the voters and should receive their consideration. We desire an expression of your opinion."

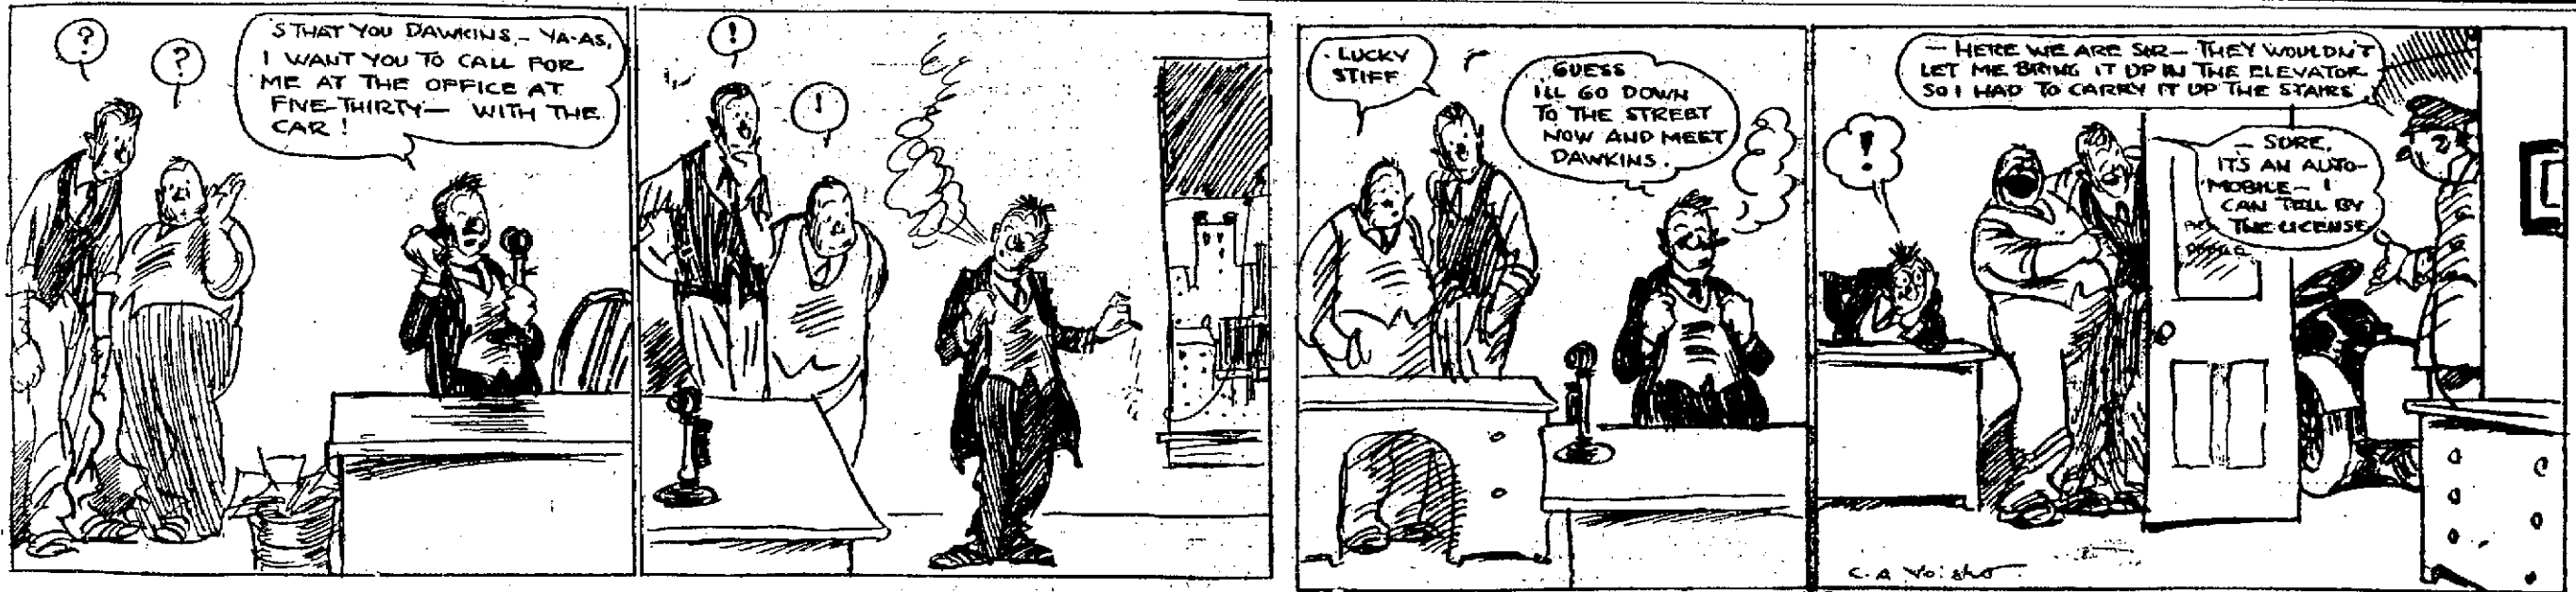

"Please enter the vote on each resolution and return these promptly in enclosed envelope. Thanking you in advance for your co-operation for the common good, 'Yours very truly,'"

On reading the above letter the town clerk might expect to find resolutions concerning the important subjects before the legislature. For instance, the kind of referendum vote upon the central board of education, the consolidation of the commissions touching the agricultural interests of the state, the proposed consolidation of the board of control and other kindred departments, or the plan to regulate state printing would be of inestimable value to the members of the legislature. But the resolutions are the big propositions before the people. They are the things for which the people voted and they mean savings of hundreds of thousands of dollars a year to the taxpayers. These are the propositions which will be debated in the legislature. However, the self-constituted committee selected by Senator La Follette utterly ignored these questions in their referendum.

Names Worth Millions

Certain names and trade marks in this country are worth millions of dollars. They are known to people everywhere as standing for fixed standards. They have been built up by advertising. The money spent in advertising has not only brought in immediate dividends, but has piled up a wonderful asset in the form of good will.

Money judiciously used in newspaper advertising is not spent—it is invested.

PETEY DINK—DAWKINS OUGHT TO RUN A JITNEY BUS.

SPORTS

EX-CHAMPIONS LOST TO LAWS OF NATURE

YOUTH AND STRENGTH CANNOT BE DENIED AS IN PAST HISTORY OF RING.

PRIZE RING HISTORY

In all Heavyweight Title Bout, Challengers Who Won, Not Considered to Have a Chance for Victory.

(By Stripes.)

The passing of Jack Johnson from the championship of the world, marks once again the reign of the whites, and history of the prize rings again asserts itself, in that no one can beat nature and that the challenger who wins the title, before the battle was adjudged the loser by the majority. Since the inception of the Marquis of Queensbury rules, up to the present time the championships have been held by the following—John L. Sullivan, from 1882 to Sept. 7, 1892; James J. Corbett, Sept. 7, 1892 to March 17, 1897; Robert Fitzsimmons, 1897 to June 9, 1899; James J. Jeffries, 1899 to July 4th, 1910; John Arthur Johnson, July 4th, 1910 to April 5, 1915.

Willard won the title through his physical advantage coupled with the poor physical condition, counting age and superhuman strength, elegant punching power soon had the black man down and when the pace began to tell, Willard had the reserve strength for the final effort in the 26th round. The knockout came when the white man struck a terrific blow to the side of the black man's head, and when he sent his right crashing into the jaw of his victim. The reports show that the black man was so badly hurt that he could not get up and when the referee saw the body and this has given rise to considerable talk of the blacks laying down, which appears unwarranted.

As in every other championship heavyweight battle the boxer who was regarded as not having a chance—won. Few thought the Kansas "horse buster" would ever be a champion, but he proved his power with his terrible punches that felled Jeffries at Reno for more than 20 rounds, but Willard proved able to the task because Johnson could not hurt him. The same was true in the famous Sullivan-Corbett fight when the lithe and wily Corbett sent the supposedly unbeatable John L. to the mat in the first round at New Orleans. Few figured that Robert Fitzsimmons, a middle weight would have a look in with Corbett seven years later in the historic match at Coney Island, New York, on June 19th, 1897. Corbett, who was hailed a dub and a joke when he challenged for the title, but Jeffries stood the punishment of Sharkey and the veteran Fitzsimmons and only needed one blow to knock out his opponent and strike one blow for a knock out.

At Reno, the feeling was different, for Jeffries has been out of the ring for a number of years, but still expected to whip the black.

John L. Sullivan was the first heavyweight champion to fight under the Marquis of Queensbury rules. Sullivan won the title of heavyweight champion of the world from Paddy Ryan, knocking him out in nine rounds on Feb. 7, 1882. This contest was fought under prize ring rules, and Ryan at the time he was recognized as the legitimate champion of the world's championship. Sullivan's most serious rival for the title was Jake Kilrain, and the two were matched several times, but it was not until July 3, 1888, that they finally met. Sullivan's claim, in the meantime, had been disputed by Jim Smith, champion of England. Before fighting Sullivan, Kilrain held Smith to a draw in 106 rounds. London prize ring rules.

The Kilrain-Sullivan contest easily was the most talked of prize fight in history up to that date. Kilrain had been challenging for years, but Sullivan had refused to meet him. Blood was engendered between them and when they were matched to meet July 8, 1889, the whole sporting world turned out. Sullivan won at the end of seven rounds of the fiercest contest ever held. The bout was held at Richburg, Miss. Sullivan's only real contest after that up to the time he met Jim Corbett was with Mitchell, who held him to a draw in thirty-nine rounds of milling in Chantilly, France.

der in his makeup, seemed to have little chance against the burly Sullivan and few critics conceded him a chance. However, Corbett with his new style of clever fighting, knocked out the champion in the twenty-first round. Shortly after this Corbett removed whatever cloud there may have been on the title by knocking out Charlie Mitchell, who had held Sullivan to a draw, in three rounds at Jacksonville.

Corbett brings in New Era. With Corbett came a new era in boxing. Before that every champion had won his title by his ability to take punishment. It was almost a fundamental rule of the game to take a punch to land one. Although Sullivan was rated as a clever fighter, he emerged from the ring with out bearing scores of marks from his opponent. Corbett, however, developed footwork and scientific defense and made avoiding punishment as important a part of his style as delivering it himself.

Corbett was undisputed master of his division for five years after beating Sullivan. A little before this time a middle weight named Robert Fitzsimmons arrived in America from Australia. Fitzsimmons probably was the strangest fighter the ring ever has seen or ever will see. With the arms and shoulders of a heavy weight, he had the legs of a welter weight and easily made the middle weight limit. He easily defeated every middle weight who sought to stop his progress and then branched out into the heavy weight division. Corbett was induced to give him a match after much urging.

The two met March 17, 1897, at Carson City, Nev. and for the early part of the fight Corbett seemed an easy winner. He hit Fitzsimmons all at will and soon had the audience badly out and bruised. However, Fitzsimmons was merely waiting his opening and in the fourteenth round sent in the now famous solar plexus punch which knocked the San Francisco on the canvas and transferred the title. Corbett sure of victory paused to make a remark to the ringside when Ruby Robert stepped in and punched him in the nose and soon had the audience badly out and bruised.

A wonderful lot of heavy weights were fighting about this time, many of whom deserve mention in connection with championship fights. Tom Sharkey, Joe Choynski and Kid McCoy are three who stand out foremost from a wonderful lot. Jeffries battles with Sharkey. Jeffries had only one real antagonist after that time. Corbett and Fitzsimmons were too old to give him much of an argument, but on Nov. 3, 1899, he fought a twenty-five round contest with Coney Island with Tom Sharkey. This probably was the bloodiest contest in ring annals and its fierceness can be best attested by the fact that after it Sharkey never fought a good fight against a classed opponent.

Lack of competition after this caused Jeffries to retire and upon doing so he gave the title to Marvin Hart of Louisville. Hart defended the championship against Jack Johnson in 1905, but the decision was in doubt. Hart was not well looked upon by the sporting public. On Feb. 23, 1906, Tommy Burns beat Hart for the title. The public, however, still considered Jeffries the champion, despite his retirement, and Burns' claims were lightly regarded.

Burns' match with Johnson in Australia, in which the colored man beat him in fourteen rounds, and Johnson's later victory over Jeffries at Reno are told in another article on this page.

CHENEY HAS A MOST DECEPTIVE CURVE

Roger Bresnahan, manager of the Cubs, says that Larry Cheney possesses the most deceptive ball that was ever twirled by a pitcher. It's so deceptive, says Roger, that not only can no slugger lay his bat against it, but no backstop can catch the elusive sphere.

DAHLEN HARDEST PLAYER TO TOUCH

"In all my years of ball playing," said Johnny Evers recently, "the man I found it hardest to touch with the ball as he came down to second from first was Bill Dahlen.

Dahlen always came straight down the base line directly at the base, but in the last ten feet of the distance there was no telling what he would do. He had a great way of a tic-pating where the throw from catcher was coming, and he played his slide to a nicety. "Coming straight along he suddenly would fall down on his hips, to one side or the other, spread his legs, and then use the greatest cleverness in pulling out of reach and twisting himself to hook the base with either foot.

"There are other men whom I have found it difficult to tag at second, and among them are Robert Frazar, Bescher, Magee, Miller, Huggins and Wagner.

Philadelphia critics are by no means convinced that the crippling of the Athletics will have the effect of putting the Mackmen out of the running in the next campaign. This is based principally on the theory that Frank Baker will return to the fold before the season opens, and that the young pitchers will be able to fill the shoes of Plank and Bender. While a great loss is admitted in the sale of Collins, Quaker City experts believe that the team will be strong enough to withstand this and contend it is very apt to cut a decided figure in the coming race. Of course, if Baker should continue to be obstinate and refuse to report, the situation would be changed, though it is not plain to the average observer why the absence of Eddie Collins from the line-up will not prove an irreparable blow.

TO SHOW ORIENTALS GAME OF BASEBALL

Young Chinaman, Recently Graduated From Wisconsin University, to Manage Team.

Madison, Wis., April 7.—Kim Tong Ho, one of the University of Wisconsin's brightest Chinese products, graduating a few years ago, is to lead a crack Chinese baseball team of Honolulu to Manila, China and Japan, in response to requests from various sources in the far east. Kim, now employed by the First National Bank of Hawaii, is so truly Americanized as to be an ardent enthusiast in American sports that he is admirably fitted to head a baseball expedition to the lands of the Orient. He has written of the plans to a Madison classmate, W. C. F. Aberg. He says China wants the team badly, especially to compete in the far eastern Olympic contest at Shanghai in May against the best Japanese, Filipino and American army and navy teams. The team will arrive at Hongkong April 20, Manila April 23, and on May 13 will leave Shanghai for Tientsin and Peking, provided the political situation is peaceful. In Japan the best of the university teams will be met.

"I won't hesitate to say that our team will be able to make a grand showing," says Kim, "for I have a bunch equal to the best American college teams. Our trip will last about four months, and I may say that I have worked very hard for it, especially when so many letters and cables have been received from well known people on the other side to have the only Chinese ball team in the world demonstrate the great American game.

Ho tells of his latest "find" in the person of a seventeen year old youngster whom he describes as a "sensation in baseball circles," and with him in the lineup Ho expects to have an infield "very speedy and classy."

BUFFED LEFT OUT A BIG BUNCH OF PLAYER.

Players that were on the Buffalo Feds' roster last season but who are with other teams this year are as follows: Earl M. Moore, pitcher; Victor J. Schlitz, pitcher; Frank G. Delany, pitcher; Edmund J. Perry, pitcher; James J. Houser, pitcher; Arthur Lavigne, catcher; E. Luther Bonin, outfielder; Ned Pettigrew, outfielder; Harry Moran, pitcher; Charles J. Hanford, outfielder. What has become of some of these players is unknown. They are probably out of baseball.

BUZZ CLOSE TO 2:10 OVER CALIFORNIA TRACK.

Speed is always on tap out in California. In a special meeting at Riverside, Cal., St. Patrick's day, the trotting mare, Princess Louise, ripped off a mile in 2:10 1/4 in a race. RIRerside has a half-mile track and horsemen were amazed when the thirteen-year-old trotting mare, forced out by Ulo Tolus, a four-year-old, stepped that sensational mile. Princess Louise won a portion of the "Tavern Stakes" at North Randall a few years ago.

Sport Snap Shots

MORRIS MILLER

According to legal advice, the fact that the Federal league accepted the \$3,000 advance money which it had handed Walter Johnson after he came back into the fold of organized baseball eliminates whatever chance there was for the Feds to bring suit to restrain Johnson from playing with the Washington club. It is contended that in accepting the return of the advance money the Feds have helped Johnson to repudiate his contract with them, and that there now is no ground for the granting of an injunction, which has been threatened, but which probably never was seriously considered by the promoters of the independent circuit.

Frank Baker's refusal to go to bat this summer fortunately obviates the possibility of a neutral ship being sunk within the international three-mile zone.

They might legislate the emery ball out of the league, but the emery neck will still rule supreme.

Larry Lejeune is picked as one of the candidates for the Pirate outfield who will go back to the minors before the opening bell of the season sounds. They say he is too much and has too artistic a temperament for the majors. "Everything breaks against me when I am up in the majors," he says. "Back in the minors when things don't get going right at the start you get the chance to stick around and improve."

"Kitty" Bransfield, former Pirate first baseman, was out for a job on the National league umpire staff. He recently asked Fred Clarke for a recommendation, but was turned down. "I am too good a friend of yours to see you in one of those jobs," was Fred's answer. "Kitty" landed with the New England league.

The Detroit Tigers want Pitcher Jim Bagby of New Orleans, badly, and are making all sorts of flattery offers for the twirler Joe Birmingham is bound shall be an Indian. According to last reports, the Tigers have offered the New Orleans club a shortstop, a southpaw pitcher and some hard cash for Bagby. A southpaw twirler and shortstop are two of the most dire needs of the Pels, but it is unlikely that the Tigers will be allowed to get Bagby as long as Charley Somers has the controlling interest in the Pelicans.

Just how many ball players will be kept idle next summer is hard to estimate, but there is no doubt that something less than 60 per cent of the talent will be able to find employment this year. There will be fewer leagues than ever before, and most of those in operation will have a player limit which will exclude a lot of athletes.

The municipal baseball association of St. Louis makes all of its umpires pass a written examination on the rules of the game before they are allowed to do any umpiring. The idea of the examination originated with Rodowe Abeken, St. Louis city sport supervisor. He says a better grade of umpires are now being obtained because of the exams.

They now are trying to arrange a twenty-round go between Joe Mandot and Joe Azevedo in New Orleans. Bert Connors, Azevedo's manager, says his fighter beat Johnny Dundee in their recent Memphis affray, despite the newspaper decision against him.

BIG AMPHITHEATER A DETROIT PROSPECT.

Detroit, Mich., Apr. 7.—The largest amphitheater in the world is to be located in Detroit. Construction of the Detroit Motor Speedway, on a 350-acre lot fronting on the Detroit river, within ten miles of the city, already has been started, and contracts provide for its completion by August 1, next. On Labor Day, a 500-mile automobile race for a \$75,000 purse, sanctioned by the American Automobile association, will be staged on the new oval.

The Harvard Bowl, the Polo Grounds, New York, Brooklands, England, the Yale Stadium, and other famous enclosures will be far outdone by the local speedway, which will have a capacity for more than 300,000 people.

John B. Whelan, former United States collector of customs at Detroit, is president of the speedway company.

Novel Use for Sheep. In the Himalaya mountains in India sheep are used as beasts of burden. They carry from sixteen to twenty pounds each and carry grain to market.

OLDRING MAY GET THIRD BASE JOB

Rube Oldring.

Connie Mack may spring another surprise on the baseball talent this season. There is a long chance that Rube Oldring will be brought back into the infield again should the young candidates fail to make good at third.

DOINGS OF THE VAN LOONS—It Will Be Hard For Father to Kick Now

BY F. LEIPZIGER

Sprains, Bruises
Stiff Muscles

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof
Charles Johnson, P. O. Box 106, Lawrence, Kansas, writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use some of your liniment, according to your directions. Only used a few bottles of your liniment and now I am walking quite well with one cane. I never will be without Sloan's Liniment."

All Dealers, 25c.
Send four cents in stamps for a TRIAL BOTTLE

Dr. Earl S. Sloan, Inc.
Dept. B. Philadelphia, Pa.

SLOAN'S
LINIMENT

Kills
Pain

To Fasten Labels On.
To fasten labels on bottles or cans, use a small piece of adhesive plaster. This will stick to any surface.

FEEL YOUNG!

It's Dr. Edwards' Olive Tablets
For You!

Beware of the habit of constipation. It develops from just a few constipated days, unless you take yourself in hand.

Coax the jaded bowel muscles back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with severe medicines or by merely flushing out the intestines with nasty, sickening cathartics.

Dr. Edwards believes in gentleness, resistance and Nature's assistance. Dr. Edwards' Olive Tablets open up bowel action gently, yet effectively. There is never any pain or griping when Dr. Edwards' Olive Tablets are used. Just the kind of treatment old persons should have.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two occasionally and have no trouble with your liver, bowels or stomach. 10c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, Ohio.

Dr. Osler on Tuberculosis

Sir William Osler, one of the foremost of living medical men, formerly of Johns Hopkins, Baltimore, and now Regius Professor of Medicine at Oxford, says in his "Practice of Medicine" (1892), on page 249:

"The healing of pulmonary tuberculosis is shown clinically by the recovery of patients in whose apical elastic tissue and bacilli have been found. In the granulations and necrotic areas, however, a scar tissue is formed, while the smaller cavernous areas become incased in dense scar tissue. Such conditions alone should the term 'healing' be applied."

Many eminent medical authorities have testified to the efficacy of time salts in the treatment of tuberculosis. And the success of Beckman's Alternative in this and allied throat and bronchial affections may be due partly to the fact that it contains a time salt so combined with other valuable ingredients as to be easily assimilated.

Widespread use of this remedy in numerous cases of tuberculosis—many of which appear to have yielded completely to it—justifies the belief that it is worth a trial, unless some other treatment already is succeeding. It contains no opiates, narcotics or habit-forming drugs. We make no promises concerning it, but we know of many cases in which it HAS HELPED.

Your druggist has it or can get it, or you can send direct. Beckman Laboratory, Philadelphia.

Sold by Smith Drug Co., McCue & Buss and People's Drug Co., in Janesville.

BLACK IS WHITE
BY GEORGE BARR McCUTCHEON

COPYRIGHT, 1914,
BY DODD, MEAD
AND COMPANY

Admitting that he had been deceived by a trick of the imagination, there still remained certain indisputable facts to confound him. First of all, the absolute conviction that Yvonne had the power to preserve the life that hung so precariously in the balance.

Two Old Men, Shaking as With Palsy, Roamed About the Place.

He could not overcome the amazing belief that she, and not the skilled surgeon, would check the sure progress of death. Something told him that she represented a force even mightier than death and that she would prevail, no matter what betide.

He had refused to see the newspaper men who came. Doctor Hodder wisely had protested against secrecy. "Murder will out," he had said fretfully, little realizing how closely the truth old saying applied to the situation. He had accepted the statements of Yvonne and Ranjab as to the accidental discharge of the weapon, but for some reason had refrained from asking Brood a single question, although he knew him to be a witness to the shooting.

Yvonne saw the reporters and later on an inspector of police. Ranjab told his unhappy story. He had taken the weapon from a hook on the wall for the purpose of cleaning it. It had been hanging there for years, and all the time there had been a single cartridge left in the cylinder unknown to anyone. He had started to remove the cylinder as he left the room. All these years the hammer had been raised; death had been hanging over them all the time that the pistol occupied its insecure position on the wall. Somehow, he could not tell how the hammer fell as he tugged at the cylinder. No one could have known that the revolver was loaded. That was all that he could say, except to declare that if his master's son died he would end his own miserable, valueless life.

His story was supported by the declarations of Mrs. Brood, who, while completely exonerating her husband's servant, had but little to say in explanation of the affair. She kept her wits about her. Most people would have made the mistake of saying too much. She professed to know nothing except that they were discussing young Mr. Brood's contemplated trip abroad and that her husband had given orders to his servant to pack a revolver in his son's traveling bag when the time came for his departure. She had paid but little attention to the Hindu's movements. All she could say was that it was an accident—a horrible, blighting accident. For the present, it would not be possible for anyone to see the heart-broken father. Doubtless, later on, he would be in the mood to discuss the dreadful catastrophe, but not now, etc., etc. He was crushed with the horror of the thing that had happened.

The house was in a state of subdued excitement. Servants spoke in whispers and tip-toed through the halls. Nurses and other doctors came. Two old men, shaking as with palsy, roamed

raising his haggard face to meet the gaze of the motionless brown man who had been standing in his presence for many minutes.

"Miss Lydia ask permission of sahib to be near him until the end," said the Hindu. "She will not go away. I have heard the words she say to the sahibah, and the sahibah as silent as the tomb. She say no word for herself, just sit and look at the floor and never move. Then she accuse the sahibah of being the cause of the young master's death, and the sahibah only nod her head to that, and go out of the room, and up to the place where the young master is, and they cannot keep her from going in. She just look at the woman in the white cap and the woman, an step aside. The sahibah is now with the young master and the doctors. She is not of this world, sahib, but of another."

"And Miss Desmond? Where is she?" "She wait in the hall outside his door. Ranjab have speech with her. She does not believe Ranjab. She look into his eye and his eye is not honest—she see it all. She say the young master shoot himself and—"

"I shall tell her the truth, Ranjab," said Brood stolidly. "She must know—she and her mother. Tonight I shall see them, but not now. Suicide! Poor, poor Lydia!"

"Miss Lydia say she blame herself for everything. She is a coward, she say, and Ranjab he understand. She came yesterday and went away. Ranjab tell her the sahib no can see her." "Yesterday! I know. She came to plead with me. I know," groaned Brood, bitterly.

"She will not speak her thoughts to the world, sahib," asserted Ranjab. "Thy servant have spoken his words and she will not deny him. It is for the young master's sake. But she say she know he shoot himself because he no can bear the disgrace."

"Enough, Ranjab," interrupted the master. "Tonight I shall tell her everything. Go now and fetch me the latest word." The Hindu remained motionless just inside the door. His eyes were closed. "Ranjab talk to the winds, sahib. The winds speak to him. The young master is alive. The great doctor he search for the bullet. It is bad. But the sahibah stand between him and death. She hold back death. She laugh at death. She say it no can be. Ranjab know her say. Here in this room he see the two woman in her, and he no more will be blind. She stand there before Ranjab, who would kill, and out of the air came a new spirit to shield her. Her eyes are the eyes of another who does not live in the flesh, and Ranjab bends the knee. He see the inside. It is not black. It is full of light—a great big light, sahib. Thy servant would kill his master's wife—but, Allah defend! He cannot kill the wife who is already dead. His master's wives stand before him—two not one—and his hand is stop."

Brood was regarding him through wide-open, incredulous eyes. "You— you saw it too?" he gasped. "The serpent is deadly. Many time Ranjab have take the poison from its fangs and it becomes his slave. He would have take the poison from the serpent in his master's house, but the serpent change before his eye and he become the slave. She speak to him on the voice of the wind and he obey. It is the law. Kismet! His master have of wives two. Two, sahib—the living and the dead. They speak with Ranjab today and he obey."

There was dead silence in the room for many minutes after the remarkable utterances of the mystic. The two men, master and man, looked into each other's eyes and spoke no more, yet something passed between them. "The sahibah has sent Roberts for a priest," said the Hindu at last. "A priest? But I am not a Catholic—nor Frederic."

"Madam is. The servants are saying that the priest will be here too late. They are wondering why you have not already killed me, sahib."

"Killed you too?" "They are now saying that the last stroke of the gun, sahib, was the death sentence for Ranjab. It called me here to be slain by you. I have told them all that I fired the—"

"Go down at once, my friend," said Brood, laying his hand on the man's shoulder. "Let them see that I do not blame you, even though we permit them to believe this lie of ours. Go, my friend!"

The man bent his head and turned away. Near the door he stopped stock still and listened intently.

"The sahibah comes."

"Ay, she said she would come to me here," said Brood, and his jaw hardened. "Hodder sent for me, Ranjab, an hour ago, but—he was conscious then. His eyes were open. I—I could not look into them. There would have been hatred in them—hatred for me and I—I could not go. I was a coward."

Yes, a coward after all. She would have been there to watch me as I cringed. I was afraid of what I might do to her then."

"He is not conscious now, sahib," said the Hindu slowly. "Still," said the other, compressing his lips, "I am afraid—I am afraid. God, Ranjab, you do not know what it means to be a coward! You—"

"And yet, sahib, you are brave enough to stand on the spot where he fell—where his blood flowed—and that is not what a coward would do."

The door opened and closed swiftly and he was gone. Brood allowed his dull, wondering gaze to sink to his feet. He was standing on the spot where Frederic had fallen. There was no blood there now. The rug had been removed and before his own eyes, the swift-moving Hindu had washed the floor and table and put the room in order. All this seemed ages ago. Since

Brood Allowed His Dull, Wondering Gaze to Sink to His Feet.

that time he had bared his soul to the smiling Buddha, and, receiving no consolation from the snug image, had violently cursed the thing. Since then he had waited—he had waited for many things to happen. He knew all that took place below stairs. He knew when Lydia came and he denied himself to her. The coming of the police, the nurses and the anesthetician, and later on, Mrs. John Desmond and the reporters—all this he had known, for he had listened at a crack in the open door. And he had heard his wife's calm, authoritative voice in the hall below, giving directions. Now for the first time he looked about him and felt himself attended by ghosts. In that instant he came to hate this once-loved room, this cherished retreat, and all that it contained. He would never set his foot inside of its four walls again. It was filled with ghosts! (TO BE CONTINUED.)

BACK FROM THE FIRING LINE

First Aid to the Wounded.

Paris, April 7th: At almost every station on the railroads you will see men shattered and wrecked for life, men who must face the future horribly mutilated, and yet they accept their fate without a murmur of complaint or bitterness. It is the same in England, in France and, I suppose, in Russia, that all soldiers are bearing their sufferings with the greatest of fortitude.

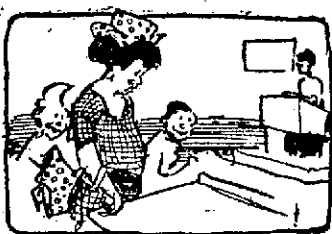

The best aid these men have is within themselves. The human body will best resist infection from bullets when it is healthy, strong, active and with all of its functions fully alive and working. The best aid to this condition is a vegetable tonic and alternative that will first put the stomach and blood right, for these are dependent on one another. Good stomach means good blood, and like wise good blood means good stomach.

Dr. Pierce's Golden Medical Discovery helps the stomach to do its work naturally and properly, stimulates the liver. The system is freed from poisons. The blood is purified. Every organ is rejuvenated. This "Medical Discovery" of Dr. Pierce, is free from alcohol or narcotics. It is made from the roots and barks of American forest plants with triple refined glycerine, and is the best blood purifier, because it banishes from the blood all poison and impure matter. It dissolves impure deposits and carries them out, as it does all impurities through the bowels, kidneys and skin. If you have indigestion, sluggish liver, catarrh, unsteady nerves, or a pimply skin, get Dr. Pierce's Golden Medical Discovery today and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigor.—Advertisement.

Dinner
Stories

The teacher was trying to explain to her class the effects of heat and cold, says Pearson's Weekly. She

told her little charges that an iron bridge would expand several inches in hot weather and contract a like amount in cold weather.

She then asked a little girl for another instance of the expansion and contraction caused by heat and cold. The child hesitated for a minute or so, and then replied:

"In hot weather the days are longer; in cold weather they are much shorter."

Young Engley married the charming Olive, and after the wedding breakfast he chanced to notice one of the guests, a young man, who appeared to be extremely gloomy and was evidently not having a good time. He stepped up to the young fellow with the idea of cheering him up.

"Er—have you kissed the bride?" he asked.

"Not lately," replied the gloomy one, with a faraway expression.

"I must say these are fine biscuits!" exclaimed the young husband.

"How could you say those are fine biscuits?" inquired the young wife's mother in a private interview.

"I didn't say they were fine. I merely said I must say so."—Washington Star.

What ship's officer?

A STATEMENT FROM
ONE OF OUR WELL
KNOWN CITIZENS

Stop right here—this is the proof you've been seeking. Mr. Samuels, a well-known grocer, gladly states his opinion of Doan's Kidney Pills for the benefit of his fellow townsmen. His story is one you can easily investigate. Read it.

F. O. Samuels, grocer, 389 McKee Blvd., Janesville, says: "My kidneys didn't act as they should and I had backache and pains across my loins. I used two boxes of Doan's Kidney Pills and was relieved. Since then I haven't had any more backache and my kidneys have been doing their work right." (Statement given Sept. 23, 1910.) OVER TWO YEARS LATER Mr. Samuels said: "I haven't had any need of a kidney medicine since Doan's Kidney Pills cured me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Samuels had. Foster-Milburn Co., Props., Buffalo, N. Y.

That Also Be Thought Of.

She was leaving the city for home, and by way of making her departure pleasant for those who had served her gave a nickel to a chambermaid, saying, "Mary, you take a nice long car-ride." The maid replied: "Yes, ma'am; thank you, ma'am, but how will I get back?"

What Thin Folks Should
Do To Gain Weight

Physician's Advice For Thin, Underdeveloped Men and Women

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs, who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on-creams, resign themselves to life-long skininess and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Sargol strengthens, fat-producing elements of acknowledged merit have been combined in this peculiar preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten and the additional fats that thin people need are provided. All leading druggists supply Sargol and say there is a large demand for it.

While this new preparation has given splendid results as a nutritive and vitalizer, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.—Advertisement.

Time To Raise
the Limit

There is an extra spurt of effort stored away in every one of us, no matter how hard we seem to be driving.

E. J. Reynolds says "the time to pull that extra spurt is in slack times"—NOW, when we're in the grip of a so-called business depression.

He has done it—by INCREASING HIS ADVERTISING ACTIVITY, instead of retrenching. As a consequence, this year is the biggest in the history of his business, and the effects of the European war completely overcome.

His story of how this was accomplished, and how advertising is selling millions of pounds of tobacco for him every year you will find on another page.

Read it. Splendid as his success has been, it illustrates what advertising will do for YOU.

Make out your requisition RIGHT NOW on that stored effort of yours, for the "extra spurt." Set TODAY as the beginning of the "biggest year in your history."

Phone us to come right over to your office with some live ideas and plans that will mean quick results.

Daily Gazette

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"PAPE'S DIAPHRASIN" IS THE
QUICKEST AND SUREST
STOMACH RELIEF.

If what you just ate is scurrying on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent boxes of Pape's Diaphrasin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves, sure, and in five minutes, "Pape's Diaphrasin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the toilet with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diaphrasin" crates, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gas, heartburn, sourness, dyspepsia or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

Orfordville News

Orfordville, Wis., April 5.—Miss Margaret Davis after spending Easter at the home of her mother, in the town of Newark, returned to Orfordville on Monday evening.

Thomas Thorson who has been spending some time at Mercy Hospital has returned home, much improved.

A goodly number of women availed themselves of the opportunity to express their preference in the matter of county superintendent of schools at the election on Tuesday.

The question as to where the state roads are to be built in the town of Spring Valley, was one of the contested questions in the township election. This matter was finally settled by the introduction of a resolution directing the board in the matter.

W. F. Krueger has disposed of his interest in the blacksmith business, thus dissolving the partnership of Krueger and Larson. The new firm will be Larson and Troon, the new member being S. J. Troon.

Roy Gavvy Shuman visited friends in Orfordville for a few hours on Tuesday, returning home at 4 p. m.

KOSHKONONG

Koshkonong, April 5.—Mrs. Tuill Miller visited her sister, Mrs. Percy Usher at Shopshire Tuesday.

Mrs. D. P. Marquart visited her sister, Mrs. Viola Jones at Racine a few days last week.

Miss Martha Miller entertained a friend from Milwaukee Saturday and Sunday.

Mr. and Mrs. William Kunkle moved to their new home at Milton Junction Saturday.

Mrs. Joseph Kraus entertained a few of her neighbors Wednesday afternoon, a good social time was had by those present.

Mrs. Mont Stone has been spending some time at Milton Junction with the new granddaughters at the home of her son, Cash.

Mrs. Frank Shuman is enjoying a visit from her brother, Mr. St. George of Manawa.

Mrs. Will Miller and Miss Mary Black went to Janesville Saturday.

Mr. and Mrs. Herman Arndt spent Friday in Janesville.

Mr. and Mrs. Jay Curtis of Milton Junction spent Sunday with their parents, Mr. and Mrs. John McNamara at Oshkosh.

Mrs. Otto Sabien and children Helen and Leo are here from Spooner to visit her parents, Mr. and Mrs. W. Kunkle.

Miss Dorothy Ward of Milton spent two days of last week with her sister, Mrs. Ethel Traylor.

A short Easter program was given at Otter Creek church Sunday afternoon. The election of Sunday school officers will take place on next Sunday. Sunday school to begin at 2 o'clock p. m.

Mr. and Mrs. Robert Brown of Rock Prairie spent Sunday at P. Traylor's.

No Fear of Wheat Shortage Shown In Government Reports

Washington, April 7.—That 1,000,000 bushels of wheat a day can be exported until July 1, in addition to supplying this country's needs, is the reassuring figure the Agricultural Department. Before July 1 the department points out, the new wheat will be coming in, so there need be no fear of a shortage which will actually deprive the people of this country of bread.

Had it not been for the war, with the closing of the Dardanelles, which locked up Russia's surplus, and had it not been for a world's shortage, outside of the United States, estimated at 400,000,000 bushels, the farmers of the United States, instead of selling their wheat at high prices, would really be in a serious condition. The department experts say. They would be looking eagerly for buyers of their wheat, with prices probably way down below the cost of production.

The 1914 crop of the United States was estimated at \$91,000,000 bushels. In addition to this it was estimated that the amount of wheat carried over from the 1913 crop was 75,000,000 bushels, so that there was on hand a total of about 967,000,000 bushels. The normal consumption of this country is about 3,300,000,000 bushels to supply the food requirements of the United States, besides about 90,000,000 bushels needed for seed.

So that the surplus remaining for export was, roughly, 357,000,000 bushels. On January 30 about 210,000,000 bushels had been exported, which left, at that time, 147,000,000 more bushels available for export than the average at that time during the last five years.

Mr. Farmer, much as he may deplore the war and the slaughter, may at least be thankful that something prevented him from finding himself with what would have almost been a drug on the market in his hands. Instead he finds himself with the highest price in years for his big money crop.

Peach Growing.
How general the peach industry has become is brought out strongly in a bulletin just issued by the Department of Agriculture, in which it was shown that 39 of the 48 states in which peaches are grown, produced more than 100,000 bushels of peaches to well over a wide range of types of soil, including even some of the moderately heavy clay loams and clays. A prime requisite, however, is that the soil be well drained.

Peaches will not grow successfully on poorly drained soils. While requiring fairly fertile soil, peach trees do not particularly require a very large amount of nitrogen. Soil very rich in nitrogen is not to be

desired as a general rule, since it is likely to induce an excessive growth of foliage. Alkali soils are not suitable for peaches, though a small amount of alkali will not be necessarily dangerous. It is safer, however, to avoid them as a general rule as far as possible.

Ground that is higher than the surrounding country is usually desirable for peach orchards, since frost is not so important in this particular as height above the surrounding country, on account of the tendency of cold air to settle in the lowest levels. Danger of frost is also minimized if the peach orchards are near a large body of water. Due to the fact that water in large bodies warms up more slowly than the spring that the nearby land, it has a tendency to check early blossoming, with the result that there is less danger of frost destroying the crop after a few days of delay. In the fall frosts are delayed in a similar manner, because the large body of water, having absorbed much heat during the summer, cools off in the fall more slowly than the atmosphere, and hence tends to keep the temperature within its zone of influence warmer than it would otherwise be.

As a rule, however, the zone of influence of such a body of water does not extend more than a few miles back from shore line.

Figures on Cattle.
A careful accounting system applied to 24 Iowa farms by men known to be experienced in the feeding of cattle show conclusively that the practice of following cattle with hogs is profitable, except possibly when you can get large numbers are fed on ground corn and the cost of grinding is very low, says a bulletin just issued by the Department of Agriculture.

The best sort of cattle believed that with the present narrow margin on fat cattle it is inadvisable to feed without hogs.

On the 24 Iowa farms in question, during the feeding year beginning in the fall of 1909, the average number on 961 cattle fed in bunches was \$2.05 per head, not counting the profit on the hogs following them.

The prices received for the cattle were very satisfactory. The 1504 hogs following these steers, and which were given extra grain, were sold in the spring of 1910 with a profit of \$6.67 per hog, which if credited to the steers, gave a profit of \$12.49 per steer. In the following feeding year, 1910-11, prices were unsatisfactory and this caused a loss of 72 cents per head on 138 cattle fed on 25 farms. Hogs following these steers, however, returned an average profit of \$3.33; and when this profit was credited to the steers there was a net profit of \$4.04 per steer.

CENTER

Center, April 6.—The many friends and neighbors as well as relatives of Otto C. Long were indeed pained and shocked to learn of his sudden passing away at his home on Monday morning at 10 o'clock. He was very highly respected here and was known to his home his entire life. His bearded wife, son, Harry, and daughter, Lulu, one sister and two brothers, especially have the deepest sympathy in the loss of a loved and loving husband, father and brother.

Mr. and Mrs. H. O. Barlow of Footville, left for Beloit Monday afternoon where in company with Mr. and Mrs. C. Shaw left on an early train Tuesday morning for Texas on a pleasure trip.

Mr. and Mrs. James Roherty and family are the latest purchasers of a new auto.

J. P. Snyder of Janesville, was out Monday putting in a foundation for a family monument.

Miss Verna Davis of Ft. Atkinson, spent Sunday at the parental home.

Miss Florence Davis returned to her school duties at Afton Sunday, having spent Friday and Saturday with the Thorne folks.

Jay Fuller is putting a monument foundation in for J. S. Crall.

It is hoped the burning of the dead grass at the cemetery last Thursday will improve the appearance the coming season.

The singing birds have put in their appearance and the farmers have started their work tilling the soil.

JUDA

Juda, April 4.—Leo Nicks of Gratiot spent Easter with his cousin, Miss Pearl Nicks.

Mrs. Anna McElme was a Brodhead shopper Thursday.

John Thornton and family of Albany spent over Sunday with Mrs. John Thornton Sr.

Mrs. Madeline Everett Purinton, H. B. Giffard, Geo. Barham, Misses Louise and Martha Hiltner, Mrs. A. R. Dunwiddie and Robert were Monroe Easter shoppers Saturday.

Mrs. Robert Deminger and daughter, Fern, left Saturday for a few days visit with friends at Orfordville.

James Allen of Janesville visited last week here.

Frank Miller and family motored to Brodhead Thursday.

Mrs. V. C. Patton of Evansville spent last week with her daughter, Mrs. Harrison Grenow.

Miss Anna Baltzer was a Brodhead caller Monday.

I. J. D. Fairhurst of Orfordville was here on business Monday.

Mrs. Alice Vanderbilt spent from Thursday until Monday with Rev. and Mrs. Marshall of Mrs. H. C. Lee Berryman of Dodgeville spent part of last week with Troy Rice and family.

Rev. and Mrs. J. W. Gillispie are the happy parents of a baby girl, born Thursday, April 1.

Miss Bessie Dunwiddie of Monticello is home for her spring recess. Rev. Sharp of Milton will preach at the M. E. church Sunday. All invited.

Miss Clara Roderick was a Janesville shopper Tuesday.

The R. N. A. will meet Tuesday, April 13, at 8 o'clock. All members are requested to be present.

ALBION

Albion, April 6.—The Young Ladies' Educational society of Albion met at the home of Iva Saunderson at Edgerton. A business meeting was held after which a two course luncheon was served and the latter part of the evening was spent in a social manner.

The faculty and students of Albion Academy returned to their school duties here yesterday after a short vacation.

Mr. and Mrs. James Herrington and niece, Sylvia were entertained at supper, Sunday evening at the home of Mrs. Nels Olson.

Miss Bessie Ford returned from Stoughton Saturday after a two weeks' vacation with her sister, Mrs. T. C. McCarthy and children, who came with her to spend Easter.

Miss Kathleen O'Neil of Rockford is visiting Miss Florence Ford for a few days.

Mr. Henry Haugen and wife returned from their honeymoon and will live on the Anson Bliven farm, a mile

TELLS OF COLONIAL TROOPS IN THE WAR

National Geographic Society Gives
Data on Various Countries and
Fighting Forces.

Washington, D. C., April 6.—Describing the Belgian Congo, the National Geographic Society, in a statement issued today, says: "Although Belgium now controls less than 300 square miles of her territory at home, she is still possessed of a colony one-fourth as large as all Europe put together. It is larger than the combined area of all the countries now at war, outside of Russia. This colony is the Belgian Congo, with nearly a million square miles of territory."

"This empire is carved out of the heart of equatorial Africa and includes within its confines one of the world's great rivers, the Congo, from which the colony takes its name. The river has a course of about 3,000 miles, and with its tributaries forms a wonderful system of communication for opening up the rich hinterland. It is estimated that there are 6,000 miles of navigable waters in the colony. The Congo river is navigable for ocean steamers for 100 miles up stream. Here follows a section of 200 miles of rapids, above which the river is navigable for 1,200 miles.

"The work of exploiting the heart of Africa has just begun. There has been considerable difficulty in inducing European colonists to emigrate to these regions and begin new homes. First, the Congo has the evil reputation of being a deadly territory for the white man, and secondly, there has existed that a permanent home there meant permanent burial without the pale of civilization. There-

fore, the pioneers of the Congo have had to overcome a great natural handicap among their people to exchange the comforts and certainties of the motherland for the questionable advantages of pioneering in the wild, 'dark' continent.

"Some advance, however, has been made, and the future of the colony seems to be one of promise. Although the climate is generally hot and moist, it is supportable by the white man. The climate of the coast lands is least endurable for the Europeans. Over a great part of this territory, normal temperatures range between 60 and 90 degrees. Rain is everywhere abundant. The extreme heat of the day is generally relieved by sharp evening chills.

"The white population of this land remains still negligible. The total population has been estimated at 15,000,000, in which are counted a mere 6,000 whites. The native population, while overwhelmingly superior in numbers, has been awed by the white man's machine gun and his rifles, boats, and telegraphs, and forms a docile working body for the improvement of the land. More than 1500 miles of railways are in operation and in course of construction. Further, 1145 miles of telegraph communication have been established, five wireless stations, and some 50 postoffices. Before the war, there was regular communication with Antwerp, a steamer from that port calling every fortnight.

"The agricultural possibilities of the Congo are great. If modern methods of sanitation finally open it up to the white man, his flora is very rich and varied, and the soil is now cultivated in its fields are coffee, cotton, rams, papaws, pineapples, cassava, corn, rice, peanuts, beans, banana, tobacco, sorghum and kafir corn. Its forest, abundant in rubber vines, and the natives are employed for gathering the rubber, which forms the chief article of the colony's export. Rich cabinet woods are plentiful, and many important gums and resins are collected. All of the domestic animals thrive in this African country. The list of native animals includes the elephant, hippopotamus, buffalo, antelope, chimpanzee, rhinoceros, and crocodile. Slavery for elephants for their ivory has been prohibited, though the ivory exports are still heavy, coming chiefly from native accumulations. Of the minerals, large deposits of iron, tin and coal occur, and salt deposits of copper and gold are found in the southeast.

"For many years, this territory, as the Congo Free State, first recognized by the United States in 1884, maintained a quasi-independence under the rule of Leopold of Belgium. It was formally annexed to Belgium in 1910. It has an annual revenue of about \$8,000,000, and a public debt of more than \$20,000,000. The colony is defended by about 18,000 native troops."

Palm kernel oil, white copal, cacao, coffee, corn, kola nuts, gold, ivory, copper and raw hides are the chief articles of export. The total trade of the Congo is about \$28,000,000. It is about evenly divided into exports and imports.

MILTON GLEE CLUB IN FINE CONCERT

College Singers Present Interesting
Numbers at Baptist Church Last
Evening Before Fair Attendance.

The musical entertainment rendered last evening at the Baptist church by the Milton College Glee club was heard by about one hundred listeners. Every number on the program was well received, the reading with musical setting on "King Robert of Sicily," by Professor Stringer, being of special interest.

But fifteen students make up the club this season, Allison Burdick, son of Dr. Burdick of this city, being one of the members. The organization has a long itinerary for this year and will be on the road for a couple of weeks. They already have given several concerts. Every member of the club has a powerful voice, thus making a combination of singers that is hard to beat in college circles.

NORTHEAST PORTER

Northeast Porter, April 6.—Miss Florence Zacharias who has been very ill with nervous prostration is still under the care of Dr. McChes-

School is again in full swing after the Easter vacation with Miss Jennie Olson in charge.

Herbie Herried and Helen Zacharias are possessors of new autos this spring.

Miss Eva Haylock spent the week with Miss Irene Bothroyd.

The Fulton Y. M. C. A. boys will give a banquet at the Ladies' Hall Saturday night.

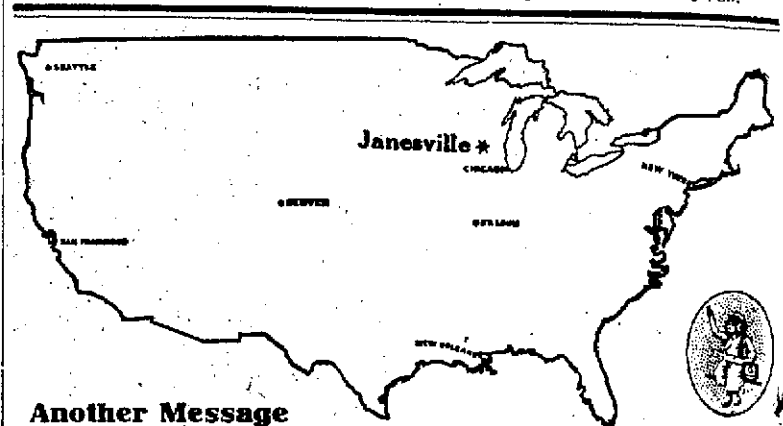

Mr. and Mrs. Alec Jensen were over Easter guests of her parents, Mr. and Mrs. Theodore Larson of Stoughton.

Mrs. Ella Peach and son, Lloyd, were in Evansville one day last week visiting her uncle.

Harry Bothroyd is spending a few days in Janesville with his son, Clair.

Wm. Gardner attended the Uni-

versity Exposition in Madison Friday. Ed. Jensen has finished hauling the lumber for his new house. Our High School students are again busy with their school work. Mrs. C. J. Kenez and daughter returned to Sank City Friday, after a visit with her parents, Mr. and Mrs. Harry Boothroyd.

Another Message To the Business Men of Janesville

Business fights shy of dead towns. A sure sign of a dead one is the lack of local pride. People who live in a live, prosperous town show it. Their stores are attractive, their streets clean, their homes are well painted.

Nothing shows a lack of pride, a lack of prosperity, like paint-hungry buildings. Let's paint up. As the most durable and economical paint, we recommend

Shipman White Lead

(Dutch Boy Painter Trade Mark)

and Dutch Boy linseed oil, mixed right on the job, to suit the job. Have your painter tint it any color you wish. Consult your paint dealer on that job of painting you have in mind. Today's the day.

WOMEN'S CLUBS AND THEIR ACTIVITIES

(EDITED BY MRS. ABBIE HELMS.)

THE IDEAL CLUB WOMAN

(Florence F. Perkins.)

As we think of clubs and their value, we are prone to gauge their power or success by the efficiency of their officers, losing sight of the fact that it is the kind of members a club has, which in the end proves its worth. The ideal club must have not only ideal officers, but ideal members as well. And what is an ideal club member? It is not the simple task it may at first appear to describe her. To be sure we club women all have—or are supposed to have—an ideal which we are striving to realize. The difficulty in generalizing it lies in the fact that it is so multifarious—that the ideal one person sets before herself to emulate, may be radically different from that which is well chosen objective of another, while a third person may yet have another criterion. What is more all three may differ as to the qualities with which they would endow their ideal. However, it would seem obvious that there are certain distinctive traits essential to the ideal clubwoman, as well as certain characteristics that are equally to be avoided. The ideal club member—must be enthusiastically interested in her club, in its business meetings as well as in its luncheons, in the days when there is home talk as the chosen days when the program carries the name of some noted speaker or of some special attraction. She is the woman who is punctual in attending meetings; prompt in answering letters; alert in doing the work assigned to her. She is always ready to do her part—in fact she is always doing a little more than she is asked to do. She is willing to do something to make her club a success; she is absolutely forgetful of self, thinking only on the good of her organization. Of course she does not gossip, and she is free from the spirit of criticism for she tries to thoroughly understand a question before expressing her opinion. She is full of charity and very appreciative of the efforts of others; she has (this naturally follows) a good nature and tact. The ideal club woman is one whose home in not only neglected, but is more efficiently managed and more a source of inspiration because of the efforts of her club. She is honest, not only with her co-workers, but with herself and she is never an office seeker. Most of all the ideal woman must have sympathy. One of the political leaders of the Massachusetts said recently that the "Greatest test of true womanhood is a broad human sympathy." Sympathy means knowledge and understanding of the conditions existing in the world, but it also means a reasonableness of mind toward others' opinions and an appreciation of the value of a different point of view. It also means being willing to extend a "good mixer," able to adapt herself to all those with whom she comes in contact. Two years ago at the council meeting of the National Federation in Washington, the subject on the program for the last meeting was "The Ideal Clubwoman," and those who were present remember that it was said she must have the following characteristics: Steadfastness, thoroughness, poise, charity, courage, justice, helpfulness, patience, honesty, faith, dependability, sympathy, cheerfulness and tactfulness. After all the ideal club woman is only the ideal woman ready to play her part wherever she may find herself.

THE VILLAGE IMPROVEMENT CLUB OF MILTON.

This organization, though not strictly a Federation of clubs, takes in many of the club women of both Milton and Milton Junction. They have done fine work in improving

the conditions in both villages. They have aided in the beautifying of the school grounds and the land in the vicinity of the depot and have been largely instrumental in securing a new station building. Also have helped the College in the improvement of its grounds and have been instrumental in the improvement of the line of "Household Economics," "Civics" and "Social Service."

Mineral Point has a Civic League of over one hundred members, and Edgerton has a flourishing City Federation from which we have not yet secured data.

In looking over the year books of the various clubs it is interesting to note how the trend of thought is bearing toward the great public questions of the day. The time is past when enlightened womanhood is expected to accept the ready-made opinions of others. She feels that she must study and understand for herself. For instance the Emerson Club of Whitewater has for its study this season "Topics of Our Country." It has a four days' program on "The Department of the Interior. The subdivisions are: 'General Land Office,' 'Reclamation Service,' 'Bureau of Education,' 'Bureau of Indian Affairs,' 'Pension Office or Patent Office and Geological Survey or Bureau of Mines. Then there are days spent on the Peace Movement, 'Taxes, 'Protections of Labor' and on Prisons and Penal Reform. Also a three days' study of the Department of Agriculture with topics of 'Bureau of Animal and Plant Industry,' 'Experiment Station and Forestry.' Also they have a few lighter subjects of discussion as 'National Parks,' 'Commerce of the Great Lakes,' and the Development of Alaska.

The Alpha Club of Whitewater has for its year work "A Study of Mexico and Wisconsin" with other miscellaneous topics. Their motto for this year is, "To be alive in America is to ride on the central current of modern life." The miscellaneous topics are decidedly up to date, some of them being as follows:

"Notable Women in History," "New Ideas in Education," "The Modern Pictures as a Social Force" and the Making of an America. The latter topic takes up the book by Jacob Riis and "The Promised Land" by Mary Antin and contrasts the life of the two authors.

The Round Table Club of Whitewater has for its seasons work "Municipal and Modern Art." Some of its sub-topics are as follows: "Picture or Large and Small Cities," "A Model Art Center," "New Terminal Stations," "New Cathedrals," "Government Buildings," "Art at the Panama Exposition," and "Art in the Park."

The Minneapolis Club of Whitewater has for its year work "Topics of the Day." Some of the subjects taken at random show the diversity in the thought presented. Some advantages and disadvantages of "Trusts," "Labor History of a Strike," "The Anti-Saloon Movement," "The Consumers League," "Pure Food in Wisconsin" and "Progress in Philanthropy."

The Women's Literary Club of Evansville has for its year work this year, the study of the drama, taking up some of Shakespeare's plays and some of the modern dramas. But they have found opportunity to insert several of the more practical topics of the day. Some of these are, "The Peace Movement," "Commissions of Wisconsin," "Recent Legislation of Social and Civic Value," and one day devoted to "Evansville's Greatest Need," and the "Garbage Disposal."

The "Mothers and Others Club" of Evansville has "Mothers Problems," "Household Management," "Sanitary Food, Water and Air Supplies," "Spring tonics and Vegetables."

Balanced meals and civic improvement among the many timely topics on its list of study.

The Century Club, of Edgerton has "Problems of the Day," for its seasons work. It has several meetings devoted to the present war with its "Causes and Effects and Women's Part in the War," "The Peace Movement" and the "Red Cross Movement" are also noted as worth while. "Women and children in industry" and "The Conservation of Human Life with a program on educational forces and age on immigration show the modern methods of the times.

The Afternoon Club of Evansville state in their year book that the subjects for study of the year are Wisconsin, Alaska and Modern Drama. But in the discussion of Wisconsin they dip into the "Marriage and Divorce Laws" of the state, "The Property Rights of Women" and the "Laws Regulating the Employment of Women and Children." They have also the topics, "Interesting places in the State" and "Authors and Artists" of the same. Also papers on "Normal Schools," "Reformatories," and "Indian Reservations."

The motto of the Racine Twentieth Century Club seems to contain the spirit which animates most of the clubs of the present day, that is the spirit of service. It is: "Let us join hands and help."

For today we are alive together. Anyone who is conversant with the signs of the times knows that the intelligent womanhood of the club movement is engrossed by something more elevating than pink teas and Easter bonnets. Also that they do not spend their time and strength clamoring for the ballot. Most of them have the confidence that the right to vote will be theirs in good time and meanwhile they are studying how to best improve themselves and the communities in which they live so they will be ready for the ballot if it comes. The motto of the state "Forward" may well be adopted as the talisman of most women's Clubs. They are alive to their opportunities and their duties and feel a strong impulse toward the responsibility of service.

Club Happenings

FIRST DISTRICT FEDERATION MEETING.

This meeting is to be held in Beloit on Tuesday and Wednesday, April 27 and 28th. A fine program has been prepared and the Beloit Women's Clubs hope there will be a large attendance. All club women are invited to attend whether their club belong to the district federation or not. A notice of the complete program will be given later.

CIVIC LEAGUE.

The regular meeting of the Civic League was held at the city hall on Monday, April 5. In the absence of Mrs. Taylor, Miss Sara M. Richardson presided. The chairman of various committees and the vice presidents of various wards gave reports.

Mrs. Nichols, chairman of the rest room committee, announced that a detailed report of the work of this committee will be published within a few days.

The chairman spoke of the death of Mrs. Osgood being a great loss to the league. She had been a member from the time of organization. A committee was appointed consisting of Mrs. H. C. Buel and Mrs. L. E. Reynolds to prepare suitable resolutions.

Miss Helen Welch spoke of the great need of an organization for the girls and young women of Janesville. She advocated the establishment of a

branch of the Young Woman's Christian association. Interesting informal discussion followed.

Many members spoke on the subject, some favoring a Y. W. C. A. and others a Business Girls' Club. The chairman requested that those present act as a committee of the whole and think the matter over, talk it over with as many citizens as possible and come prepared to discuss the matter more fully at the next meeting.

An invitation to join the District Federation of Women's Clubs was read, and the league members were urged to attend the convention to be held at Beloit April 27 and 28.

COUNCIL OF THE GENERAL FEDERATION OF WOMEN'S CLUBS.

This meeting is to be held in Portland, Oregon, from the first to the fifth of June. All presidents of federated clubs are members of the council and are cordially invited to be present. If any club woman from the city expects to be in Portland at that time, arrangements can be made for her to represent one of the federated clubs and so enjoy the meeting and the hospitalities of the council. This conference is said to be really more enjoyable than a Biennial as the number present is smaller and the ladies get better acquainted.

THE PHILOMATHIAN CLUB.

The Philomathian Club have their annual Reciprocity Day in the shape of an open meeting, to which the presidents of the Women's Clubs in the city have been invited to attend as guests of the club. It is to be held at the residence of Mrs. J. R. Whitton, 235 South Third street on Saturday, April 10th. The subject of discussion is "The Betterment of Janesville," and a fine program along that line of thought has been arranged.

ATHENA CLUB.

The work of the Athena class March 31, at the Library Hall, was upon California—its early history, resources and its natural attractions. A study of the Colorado river and the Salton Sink in southern California was very interesting. The work of the next meeting will be upon the desert and the Yosemite.

THE ART LEAGUE.

The Art League meets at the Library on Friday evenings. The subject of study is to be the Romanesque Architecture in Italy, the program is as follows:

Saint Ambrogio Milan—Miss Prichard.
Cathedral Pisa—Mrs. Reynolds.
Cathedral Lucca—Mrs. Rogan.
Current Events.

A very enjoyable session of the Eastern Star Study class was held at the home of Mrs. A. L. Wilcox, 24 Sinclair street, April 1st. Assistant hostesses, Mrs. Erickson and Mrs. Myers. Mrs. Kerch read the new and popular drama, "The War Brides," now being staged in New York City. It is intensely pathetic. Mrs. Garbutt gave two humorous poems. Mrs. Stevens read a sketch of Prince Otto Von Bismarck, called the "German Chancellor," born 100 years ago that date, and had several excellent pictures of some delegates elected to the 1st District Federation Convention of Wisconsin Women's Clubs to be held in Beloit April 27-28 were present. Mrs. Eddy, Mrs. Nettie Tallman—President, and Secretary, Alternates—Mrs. Nellie W. Vance, President and Mrs. Mollie Kerch.

We hope to announce in our next week "Club Notes" something of a highly, interesting nature.

ADA P. KIMBERLY
Historian—O. E. S. Study Class.

WHAT OTHER WOMEN'S CLUBS ARE DOING.

While busy about our own club matters it is sometimes helpful to know what our neighbors are doing. To find out about the club work of adjacent cities we have corresponded with various clubs concerning the work they are doing, with the following results.

BELOIT FEDERATION OF WOMEN'S CLUBS.

The work of the Beloit Federation is along civic lines entirely. They have six clubs in the Federation and an individual list of over sixty members, that is, those not belonging to any clubs. The entire membership being something over two hundred. A very successful year has been maintained this last year in the down town district through the cooperation of the Federation with the Fathers. A visiting nurse has been secured largely through the efforts of the club women and other matters concerning the welfare of the community have been advanced. They are now looking forward to entertaining the First District Federation on the last week in April.

Mrs. W. C. Loar, president.

THE WOMEN'S COUNCIL OF DELAVAN.

The line of work being done as shown by an article of the constitution of this club is as follows: The object of this organization shall be to form a union of all the women's organizations in Delavan in order to further municipal, educational and philanthropic work. There are five clubs belonging to the association as follows: Women's Christian Temperance Union, The Women's Relief Corps, The Monday Club, The Ohio Club and the Women's Club. The executive board consists of the officers of the council and one representative of each of the affiliated organizations and the chairman of the standing committees. The dues are five cents per capita yearly. Not later than November 1st, the executive board shall arrange for an open meeting of the council at which each organization shall express its preference concerning the work to be taken up by the council for the year. After discussion a vote shall be taken deciding the question. The organization has been in existence two years.

THE WHITEWATER FEDERATION OF WOMEN'S CLUBS.

This is a very successful organization which has become noted for its co-operative spirit and for its successful working methods. There are seven women's clubs belonging to it and one of their plans is their unique way of raising funds. Instead of having dues collected from the club members each one of the clubs entertains the City Federation for an afternoon each year, with a program and light refreshments. A small fee is charged and in that way quite a

sum is raised which is applied to the work in hand. They have about 150 members.

Here's a rare bargain opportunity. Ladies' Waists in Voiles, India Linens and Lawns, specially priced for tomorrow at 69c

THE LAST STRAWS

BY SARA MOORE

FOR THE SELF-SUPPORTING GIRL.

When she stays up until 2 a. m. to make the evening gown she can't afford to buy;
Rushes through eight hours of high tension business pressure next day; Saves money and time purchasing slippers and gloves by eating a sandwich at noon;
Is kept over time at the office and comes home to wrestle with the boarding house inadequate hot water supply;
Has 27 minutes to devote to hair, finger-nails and dressing problems to which women with maids give two hours;
And her fiancé, who has prepared for the dance by having his clothes pressed and his face shaved, compares her with "stay-at-home" girls who give all their energy, thought and time to clothes and grooming.

AMUSEMENTS

AT MYERS THEATRE.

ADVERTISEMENT

The Suicide Cat.
It was not an ordinary cat. From infancy it revelled in luxury. It was fed and petted—dined and wine—its life by a thousand men. For it was a super-dreadnaught of our new navy. This mascot cat, like its less fortunate kind, possessed the proverbial "nine lives," but even that was not enough to save itself from the rash act committed in a moment of bitter desperation. Of course the conditions that drove the cat to self destruction were crucial. The hour had come for battle practice on the U. S. S. Wyoming. Twelve inch guns which could hurl 10,000 lbs. of steel through the air would be turned loose in one instant. So the decks were cleared and tabby cat had been tenderly put in-

lay—the past and present customs, costumes, dances, habits, etc., of a strange people forms another noteworthy subject of vital and absorbing interest, besides many other features of rare charm and beauty, not to mention entirely new animated cartoons which always form such a welcome and pleasant diversion.

AT MYERS THEATRE.

ADVERTISEMENT

In George Kleins's five-part comedy "Officer 666," from the Conan & Harris stage play of that name, many persons will recognize an old friend. This is Makoto Inokuchi who plays Bateato, Gladwin's Jap servant. Those who saw the play will remember, with a smile, Bateato's unconquerable proclivity for saying the wrong thing at the wrong time and then assuming a sphinx-like silence.

Edgerton News

Edgerton, April 17.—Yesterday was one of the quietest election days that this city has ever witnessed, there being no contest for office except for alderman for the second ward and justice of the peace.

John Dawe, Fred Jensen and D. Willard North were the three candidates for justice of the peace. Dawe received 23; Jensen, whose name was not on the ballot, received 62; while D. W. North received one. Oscar Jensen and Dr. F. C. Meyers were the candidates for alderman for the second ward, Jensen winning by a big majority. James O. Arthur was elected alderman of the first ward and Edward Hopkins supervisor by large majorities. August Dallman was elected alderman for the third ward and Henry Ebbott supervisor.

Miss Genevieve Holcomb returned from a week's visit with friends and relatives in Omaha, Nebraska. William Heddles of Madison spent yesterday calling on friends in this city.

Wetman Dickinson departed this morning for the northern part of the state to look after his tobacco interests.

Dr. Evans, president of Ripon college, has been engaged to speak for the class of 1915 at the commencement exercises to be held in this city June 3d. Mr. Evans is regarded as one of the best commencement speakers in the state, and this is the first time in the last eight years that this city has been able to get him to come.

William Heddles left this morning for the northern tobacco section to look after his interests in that country.

6—6—6

Henry Schmeling is busy looking after his land interests in Seymour this week.

The Dramatic Society met in the High School auditorium last evening and continued to carry on their regular program. Owing to the different members of the society that will take part in the home talent "Savage Land" there were not many in attendance.

The home talent play which is to be given under the auspices of the K. of P. lodge on Friday night of this week, promises to be one of the biggest events ever given in this city. The play will be produced by a clever local cast of thirty people.

The Inokuchi Y. M. C. A. group under the leadership of Sanford Smith met in the High School Gymnasium last evening and played an interesting game of basketball. The group appointed a committee to make arrangements for a hike which will take place Saturday morning. This group is showing great interest in the Y. M. C. A. and should be given credit for the work.

Miss Eda Walworth returned from Mitchell, South Dakota, where she has been spending the past year visiting friends and relatives.

Miss L. Pringle returned from Milwaukee after spending a few days visiting friends in that city.

The Janesville and Edgerton girls debate will take place Friday night of this week in the local high school auditorium. It will start promptly at seven o'clock to let the people who want to go to the home talent, given by the K. of P. lodge, plenty of time to go to both events.

Miss Loretta Dickerson is spending the week visiting at the home of Mr. and Mrs. Wm. Bradley.

Miss M. Hankins is spending a few days visiting friends and relatives in Milwaukee.

Miss Bessie McInnis left for Beloit Tuesday to assume her studies at Beloit College.

Miss Ruth Watson returned to Chicago to assume her duties as a trained nurse in that city.

Richard Curran is transacting business in Brown Town, Wis., this week.

Mrs. H. C. Schmeling is spending a few days visiting friends in Watertown.

Miss Florence Hurd returned to Beloit College yesterday.

Milton Junction News

Milton Junction, April 6.—The Epworth League society of the M. E. church will hold their regular monthly business meeting with Miss Gertrude Astin tonight.

Miss Alice Bliven has returned to her home in Edgerton.

Chas. Madison has been spending a few days at his parental home here.

H. E. Schrader was in Albion today.

Dr. Rogers of Chicago came tonight to visit his sister, Mrs. S. C. Chamberlain.

Miss Harriett Paul left last night to resume her school work at Kenosha.

H. C. Stewart of Albion was calling on friends here Monday.

Mr. Hoffman of Stoughton was a business caller yesterday.

Advertising Transforms Depression Into "Big-Gest" Year In History

Instead of Retrenching, R. J. Reynolds Increased Advertising Investment to Overcome Effects of European War on Tobacco Business.

By Andrew L. Deming.

"When the European War broke out, this company, valuing advertising as an experience had taught us, decided it was a matter of good judgment not only to make no retrenchment in our advertising investment, but to increase it."

"We conduct our business conservatively having no money to throw away in any direction. But we don't hesitate to back our business judgment, depression or no depression, and therefore we appropriated money for advertising that we would have otherwise invested."

"As a result, we are doing the largest business in our history."

"If we waited for good times to roll around to get business, there would be mighty little incentive for work. The time to work is all the time. The time to pull that extra spurt that every man has stored away in slack times."

"Of unusual size and imposing appearance, and indefatigable energy, there is no more approachable, unassuming or democratic character among all the many thousands of his employees than Richard Reynolds himself. From a boyhood spent as a laborer in a tobacco factory, to the builder and owner of one of the most gigantic industries in the country, it would be hard to find a parallel to this man's life story in any country but this one, with its unlimited opportunities and rewards for ability and work."

And his manner, as we sat chatting in his office in the big executive building, at Winston-Salem, was simple and free from pose as that of his lowliest workman.

Started Career as Laborer.

"I started my career by serving my time when I was a boy as a laborer in a tobacco factory," he went on.

"When I was eighteen, I was promoted to Superintendent, though in those days, tobacco factories ran only four months in the year, and during the other months, a young superintendent must be a salesman."

"It was case in those days of loading a wagon with tobacco and driving through the mountains, selling the farmers their supply for the year. The experience of coming into actual contact with the consumer, combined with the manufacturing experience of the superintendency, were a valuable foundation for the years that came after."

"And one of the things that has remained with me most clearly is the day my father saw me start 'on the road.' Knowing that some of the boys accounted as the best salesman the fellow who could tell the best lies and 'get away with them,' he impressed on me that 'the man who would lie for a dollar will steal a dollar,' and that asking more than a fair profit was clean cut lying."

"When we're youngsters we often resent advice, but fortunate if some of it cleaves through the resentment and establishes itself once and for all in our scheme of things," he smiled, as he turned to answer the insistent ringing of the phone at his elbow.

Established Log Cabin Factory.

"But I soon felt the need of a more thorough business education," he continued, "and gave up my work to take a course in a business college. Then in 1878, I began the manufacture of tobacco in a log cabin factory, 60 miles from a railroad in Patrick Co., Va., with a capital of \$2700. My business reached \$60,000 the second year, so I sold my brands and trade marks to my partners and moved to Winston-Salem, both for the railroad facilities and because of its location in this wonderful Piedmont tobacco belt."

"My original plant here cost \$2400 and my capital was \$7500. It took us 15 years to reach an output of 1,000,000 pounds."

Along Came Advertising.

"Then along came a poor year. In 1893 business dropped off some 75,000 pounds from the previous year. So I decided to see if there really was any merit in advertising. As a venture, I invested \$4,000 that year, and saw my business increase some 200,000 pounds—with a profit that went a long way further than re-investing me for the investment."

"The next year I invested \$40,000 in advertising, and my business doubled. In other words the advertising brought it up to 2,126,763 pounds, and built a factory of ten times the existing capacity."

"In what other way could I have used that \$40,000 with as wonderful results?"

"And the subsequent years—" "The sixth year this new factory was overworked, meaning an output of nearly 11,500,000 pounds. That was nearly 15 years ago, and since then I've increased our advertising investment year after year, proportionately with the marvelous growth it has brought the business."

Newspapers Establish New Brands.

"What medium do you include by 'advertising,' Mr. Reynolds?" "Newspapers and magazines," he answered, "constituted the backbone of all our advertising," he returned. "In establishing new brands, we cover the country section by section, through the newspapers. Take the case of Prince Albert pipe and cigarette tobacco, for an instance of what advertising accomplishes in a short time: Six years ago the entire country is improving, very much faster than the pessimists dare admit. And our experience with advertising during this depression certainly proves that now is the chance of a lifetime to pull that extra advertising spurt, if we're looking for big and lasting benefit."

of homes, and how dependent we all are upon them for the world's news, it would be hard to put a high enough estimate on their value as an advertising medium.

"And please let me say that, as a matter of fact, business throughout the entire country is improving, very much faster than the pessimists dare admit. And our experience with advertising during this depression certainly proves that now is the chance of a lifetime to pull that extra advertising spurt, if we're looking for big and lasting benefit."

Another Remarkable Result From Gazette Advertising

Proof Conclusive That Gazette Subscribers Read Gazette Advertising.

Last week a small advertisement on page 5 in The Gazette announced that Bumgarner Bros. were about to sell out and that some special prices would be made on the stock to move it quickly.

Over 1,000 People Answered That Advertisement In Person

The day after the advertisement appeared over 1,000 people called at the store, coming afoot, by wagon, carriage and automobile.

The telephone business was so much more than could be attended to that the central office was asked to disconnect the phones.

Hundreds and hundreds of orders were put up and delivered and as many more were carried away.

Gazette Advertising Is Read Daily In Thousands of Homes

Here then is opportunity for the business man who has a message to deliver, who wants to tell the thousands of Gazette readers about his goods, his services or his proposition.

A four-inch advertisement daily for one year in The Gazette costs but 80c per day. Can you think of any cheaper or more effective publicity.

THUNDER OF BIG GUNS DRIVE CAT TO SUICIDE WHILE HOWE'S CAMERA MEN FILM OUR NAVY AT BATTLE PRACTICE

der battered hatches. Somehow it found its way on deck just as the heavy firing started. At the first blast from No. 5 turret, tabby was almost drawn overboard by the air suction. But it managed to rush forward to No. 3 turret just when that went off. Then it dashed back toward the stern but had barely found shelter under the guns of the after turret when they became eruptive. Knowing nowhere else to go, poor kitty made a flying leap to the edge of the deck and jumped overboard—a victim of fright. Although this was the only fatality during these crucial hours, there was at least one man aboard who felt his "nerves" were in shreds when, half-deadened by the roar and shock of the "salvos," he pulled the cotton wads out of his ears. He was Lynn H. Howard, cameraman engaged in the hazardous job of filming "the hits-per-gun-per-minute" contest—a spectacular portion of the big feature showing life in the U. S. Navy which will be shown at the Myers Theatre on April 9 and 10th.

Aside from such tense phases of life in the navy, the series also depicts its light—or recreative side—scores of bluejackets plunging overboard for a refreshing swim, and a visit up on the forecastle, the "ship's playground," where groups are squatted on the deck playing "acey-ducey," cards, tangoing, etc. In short, this series sets forth the daily life and the day's work of the 60,000 men who today man the fighting vessels of our navy. It shows in detail the means taken to promote and insure the battle efficiency alike of men and ships. It opens up an entirely new world to most spectators.

The romance of industry as expressed in the making of a cash register constitutes another feature of the program. How selected this particular plant not alone because it is typical of American skill, enterprise and organization, but because it is recognized the world over as a model manufacturing plant—a monumental realization of an idea and an ideal. The variety of the scenes may be imagined when it is remembered that 60 trades and professions are engaged here in manufacturing machines from 8,500 different kinds of raw material coming from all quarters of the globe. The registers are shipped to 15 different countries and protect 32 different coinages of money.

Planning Your New Home

Let Us Help You Make It More of a Pleasure Than a Task

Of course you get a good deal of pleasure from planning your home. But—like all home-builders—when you wish it weren't such a problem to work out a satisfactory room arrangement, the proper decorative scheme, and decide the right kind of building materials, etc. You can easily get building information of every kind right here in our lumber office. We have supplied the building materials for a large number of homes—modest and costly—in this and other towns. And for years we have been giving a world of help to home-builders.

Just a Few of the Helps—Yours for the Asking

PLANS

We have on file a very large number of house plans and illustrations which may help you get just the room arrangement and exterior appearance you want. You are welcome to look them over as much as you wish. Our study of these plans may help you, too.

KNOWLEDGE OF ALL MATERIALS

Naturally we have a thorough knowledge of all kinds and grades of building materials. We have used this knowledge to select a stock which has proved most satisfactory by test. Here you can see and compare different materials in the light of the complete information we have on them. This will make decision easy for you and give you a knowledge that will prove invaluable to you hereafter.

These helps are part of a service we feel is due you as a home-builder. To build a good quality home at a reasonable cost—on time. We extend such a service to you. This puts you under no obligation. Should you conclude to purchase here, you will find everything to be as represented and guaranteed to give complete satisfaction.

IDEAS FOR INTERIOR FINISH

No part of a home is harder to select nowadays than the interior finish—there are so many excellent designs and color schemes. We can show you samples of interior woods suited to all the different rooms of your house, finished in different ways and colors. Comparing them will help you immensely. We can tell you many things about wood finishing which might avoid serious mistakes and save you a lot of money.

CABINET WORK DESIGNS

Have you thought of building some of the furniture right into the house structure such as bookcases, office closets, the built-in chest, medicine cabinets, kitchen cupboards and other pieces? It is a real scheme, saves space and money and adds greatly to the attractiveness and value of a home. We can show you designs that will certainly please you. Do not fail to see them.

Commercial Congress Gives Statement On Alexander Bill Favoring Merchant Marine

The Southern Commercial Congress in advocacy of the Alexander Bill now pending in Congress, preparing for the establishment of an American Merchant Marine, prepared the following statement in answer to criticisms that have been advanced against the proposed measure. The announcement from the White House conveys the information that President Wilson favors the enactment into the law of the Alexander Bill, that the United States will put forth every effort toward that end, when the sixty-fourth Congress convenes.

The Committee on the Merchant Marine and Fisheries of the United States in its report of September 8th, 1914, on the Government ownership and operation of Merchant vessels in the Foreign Trade of the United States, said:

"We shall not discuss the desirability of having an American Merchant Marine. We will assume that there is no difference of opinion on that point."

No one can honestly take issue with that statement of the Committee. In order to establish an American Merchant Marine, the above Committee, after full deliberation, favorably reported a bill authorizing the government, acting through a Shipping Board composed of members of the Senate and House of Representatives, to acquire and operate merchant vessels in the foreign trade of the United States, these vessels also to be available as naval auxiliaries.

There is an idea abroad that this bill is a war emergency measure. This is not so. In its report the committee says:

"The fact that we pay a sum variously estimated to be from \$200,000,000 to \$300,000,000 annually to vessels under foreign flags to transport our commerce which seriously affects our balance of trade, is urged as a sufficient reason why we should have a Merchant Marine of our own; but this is only one of many reasons."

Long before the beginning of the present war the need for an American Merchant Marine was so keenly felt that the Senate passed a bill known as the Weeks Bill, which proposed to use naval vessels as a nucleus for an American Merchant Marine.

Objections to the Shipping Bill now before Congress have developed from two sources. It was to be expected that there would be objection by shipping interests which have been reaping the benefit of American inactivity in the foreign shipping trade. It was also to be expected that certain financial interests and their affiliations, especially those interested in foreign shipping, would object to a Government Merchant Marine.

Opponents to the bill have advanced arguments to sustain their position, but not one of them will stand analysis. Many newspapers and periodicals are opposing the bill, but the fact that they enjoy considerable advertising and other patronage from the steamship lines and the financial interests that support the bill, may go far towards explaining their position on this great question of an American Merchant Marine.

Opponents to the bill say that there are a large number of ships at present in American harbors unable to get cargoes, hence there is no need for a Government Merchant Marine. A recent investigation has proved this not to be true. Ships seek cargoes at all times, but the present chartering market is very firm; and when the question of foreign credits is settled and commerce begins to move, as it must very shortly, there will be a positive famine in ships, as over 5,000,000 tons of German and Austrian shipping are completely out of commission. To say nothing of the large number of British, French, and Russian merchant ships which have been taken over by their respective governments for transport and mail service.

There are, all told, considerably less than 100 American ships in the foreign trade in the whole world, including all of the ships which have just taken American registry to secure the protection of the flag on account of the war. None of these ships are idle. Therefore, even though there were hundreds of idle ships in every American harbor, it would not alter the necessity for passing the Shipping bill now before Congress, as all such ships would be foreign ships and the object of this bill is to establish an American Merchant Marine.

(2) Opponents to the bill say that if the Government will not enter the shipping business, private capital will provide an American Merchant Marine.

This is rather inconsistent with their statement that the harbors are full of idle ships, for, if that is true, private capital will find no attraction in the shipping business. But likelihood is there to obtain private capital in the shipping business, especially to the amount contemplated by the Shipping Bill, \$40,000,000, when long established concerns find it impossible to obtain money except at heavy rates?

When the city of New York must pay 7%, including bankers' commissions, for a loan of \$100,000,000, when the state of Tennessee found it most difficult to obtain a loan of \$1,000,000, it is not surprising that private capital will be unable to provide an American Merchant Marine, especially as it did nothing in the matter while the opportunity was open during the past year.

(3) Opponents to the bill say that the Government will lose money in this business. This argument has been their favorite one. The bugaboo of increased taxes; "loss of the initial investment every three years," and much more of the same nature, has been circulated in an effort to defeat the bill.

The shipping business is one of the most profitable in the world. "Special, Diagnostic and Consular Reports," page 39, says:

"The White Star Line, in 1910, earned a net profit of \$40,000,000, after writing off \$1,018,000 for depreciation. A dividend of 30% was paid in that year."

The Holland America Line earned about 50% net on its capital during the fiscal year of 1913. The Hamburg-American Line earned about 30% net during its fiscal year of 1913. These are only a few specific instances of steamship line earnings. They are not at all unusual but are a regular thing in the shipping business.

frequently the entire cost of a ship is earned in two years. Why, then, should the question arise, why have not Americans gone into such profitable business? The answer is, for the same reason that Americans have neglected the vast foreign export trade; they have been too busy with their industries at home.

But, unlike the export trade, which each manufacturer can work up individually, to establish an adequate Merchant Marine is so large an undertaking that it involves the expenditure of a large amount of money, that if it is to be done at all, it must be done by the government.

(4) Opponents to the bill say that it will be a danger to the United States violating neutrality if it operates merchant ships at this time.

The report of the committee on the Merchant Marine, says:

"We have rights as neutrals as well as duties to be observed. The President will have the State Department to advise him on all questions affecting our rights and duties as neutrals."

On this point the Secretary of the Treasury, McAdoo, also says:

"The board proposed in this bill consists really of the president of the United States and certain cabinet officers therein mentioned. I think there is no more punctilious citizen of the United States with respect to the neutrality of this country than the president of the United States. I think you may safely depend upon it, if this bill is passed and this board is vested with power to act, that that power will be exercised in such a way that the neutrality of this country will be preserved."

(5) Opponents to the bill make an alternative proposition that we should build up an American Merchant Marine by granting subsidies. Subsidy seekers have managed to create a belief that the merchant marines of European countries, especially the merchant marines of the two greatest maritime countries in the world Great Britain and Germany, have been built up by granting subsidies to its shipping. Neither of these countries grant subsidies except to a very limited extent and for every special service.

The Hamburg-American Line, the largest and perhaps the most successful steamship company in the world, has never received a subsidy. A moderate subsidy was granted by Great Britain to the Cunard Company in connection with the steamers "Mauretania" and "Lusitania," but that was chiefly to keep the Cunard Company from selling out. The International Mercantile Marine, the combination organization of Morgan & Company. Over 90% of the total tonnage of Great Britain does not receive a farthing of subsidy.

It will surprise many to know that the United States grants a larger subsidy to four American ships, owned by The International Mercantile Marine, namely, the "New York," "St. Louis," "St. Paul," and "St. Louis," than is paid by any foreign nation for similar service. This country pays to these ships an annual subsidy of about \$735,000, and obtains practically nothing in return for this except the carrying of the mails on these steamers, which, at regular rates would amount to only a trifling fraction of the amount of the subsidy. As a matter of fact, most of our mail goes forward on foreign ships as they are much faster and they sail more frequently, the subsidized American ships being among the smallest and most out-of-date steamers in the North Atlantic trade.

The extraordinary large profits in the steamship business show that steamships can be operated profitably under the American flag without a subsidy. In fact, the somewhat higher wages and better requirements of American seamen, therefore it will be well nigh impossible to obtain a subsidy simply to make up the extra profits possible under foreign flags. For the same reason we will never have an American Merchant Marine unless it is established by the Government, because such private capital as may go into the foreign shipping business will operate under foreign flags to get the benefit of cheaper operation, when the dangers of war are passed.

The present war has made it possible to secure, at favorable prices, an excellent choice of modern, up-to-date steamers of different nationalities, also many steamers not yet out of the builders' hands, but the contract price, also as a result of the war, the financial success of the enterprise is more fully assured as we will not have the competition of the warring nations to the same extent that we would have in times of peace.

The \$40,000,000 called for by the shipping bill will not be an expense, as the bill's opponents are pleased to call it, but it will be an investment of the first class, without considering the enormous advantage to the whole people of the United States in having an American Merchant Marine under Government control, and the great reduction in rates that will be possible as the government will not desire net earnings.

Through the high ideals and standards, wonderful engineering genius, remarkable resources and the accumulated experience gained from years of automobile experience, the Maxwell organization

Resinol

stops itching instantly!

The moment that Resinol Ointment touches itching skin the itching stops and healing begins. That is why doctors have prescribed it successfully for twenty years in even the severest cases of eczema, ringworm, rashes, and many other tormenting, disfiguring skin diseases. Resinol Ointment makes the skin healthy, quickly, easily and at little cost. Sold by all druggists.

F. E. Dixon & Company, of London, who own and operate a large fleet of "tramp" freighters, showed earnings of about 50% net last year, which proves that steamship earnings are large in the irregular services as well as in the regular lines. In fact, the profits of the steamship business are so large that

ings of from 30% to 50% on its investment, but will be content with only a fair return.

It would be little short of a political and economic crime if we did not avail ourselves of the present almost unbelievable opportunity to do in a most practical manner what which Congress was endeavoring to do before the commencement of the war, as best it could, by means of the Weeks' Bill.

Whitewater News

Whitewater, April 7.—The largest vote ever polled in the city was cast today, there being 884 ballots to count, a gain over last year by 320. There were several contests on and all were bitterly fought. The main issue was license or no-license and the outcome was awaited with much interest. The Third ward went 23 wet, the second 58 dry and the first 90 wet, giving the city a wet vote by 44 votes. On account of the large vote cast it was almost a fore-

gone conclusion that the city would go wet, but the close margin was a surprise to many. The race for mayor was a tight one between D. F. Zull and Frank B. Bishop. The first ward gave Zull fifty-eight votes; the second went two votes for Bishop and the third went thirty-eight for Zull, giving him a majority of ninety-four votes. H. M. Flake defeated Ed Dutcher two to one for alderman in the first ward. In the second ward S. J. Duffin beat W. Wright by sixty votes for alderman. In the third ward Frank Hawes defeated Ed Spooner by fifty-two votes. The school commissioners are M. E. Rood in the first, J. C. Cox in the second, and Frank Cox in the third. For city clerk Alvin N. Seave won by about one hundred and twenty majority. Jacob is city treasurer and Chas. Potter is city assessor.

It was decided to buy the electric light plant by the city a two to one vote.

All the voting was done in the city hall this year, done away with the three separate places in each ward and it was found much more convenient and cheaper. Many votes were challenged and between fifty and a hundred voters were barred by not having their second papers.

Very few women took advantage to vote for school commissioner. In the town election H. C. Mills is chairman of supervisors Carl Kienbaum and F. H. Williams, supervisors, John Cassidy town clerk, T. O. Nelson, town treasurer, W. J. Ryan, town assessor, A. L. Peterson and H. B. Mills justice of the peace, Mike Miller, F. H. Kutz and Ed.

Bisurated Magnesia For Stomach Troubles

In these days of almost universal indigestion, dyspepsia and other stomach trouble the recent announcement by a great specialist that pure bisurated magnesia is an almost infallible remedy for nearly all forms of stomach trouble will come as a welcome surprise to all sufferers. A teaspoonful in a little water immediately after eating, or whenever pain is felt, neutralizes the excess acid, and instantly stops the fermentation and pain. Those who use bisurated magnesia regularly for a week or two usually find that the trouble has entirely disappeared, and normal digestion is completely restored.

Shroble town constables. Mrs. Roy Coby entertained a large company of ladies yesterday afternoon in honor of Mrs. A. L. Coby's birthday. The afternoon was spent at cards, followed with an elegant luncheon. Mrs. Coby was presented with a beautiful cut glass sugar and creamer.

Irving Wilber returned Monday from Waukesha where he went to be treated for rheumatism. He is much improved.

Act Not Covered by Law.

In a negro district a member was on trial, charged with stealing chickens. The evidence went to show that the defendant had been found with his foot in a steel trap at the door of the henhouse, while an empty sack lay nearby. The decision of the judge was to this effect: "De co't finds dat de 'fendant hadn't no criminal 'entions. Dah haint no law to p'vent a gemmen frum puttin' his foot in a steel trap ef he wants ter do it."

LOSS OF APPETITE

Most Successfully Treated by Taking Hood's Sarsaparilla.

Loss of appetite is accompanied by loss of vitality, which is serious. It is common in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what is absolutely necessary for the proper performance of their functions.

Hood's Sarsaparilla, the old reliable all-the-year-round medicine, is especially useful in the spring. Get it from your druggist today. By purifying and enriching the blood and giving vitality, vigor and tone, it is wonderfully successful in the treatment of loss of appetite and the other ailments prevalent at this time. It is not simply a spring medicine—it is much more than that—but it is the best spring medicine.

Hood's Sarsaparilla makes the rich red blood the digestive organs need.

38,000 owners have given the "acid test" to 38,000 Maxwells in the last 18 months

Every car made in the gigantic Maxwell factories is just as finely finished, just as handsome an automobile as if it were especially made to be exhibited at the New York Automobile Show, or some dealer's fancy Showrooms.

BUT—and here is a great big BUT—38,000 of these Maxwell Cars have actually been turned out and have actually been driven thousands of miles by 38,000 Maxwell owners.

These owners have driven their Maxwells up hill and down hill—over all kinds of country roads, and over

city streets, everywhere that four wheels will go.

Most of these 38,000 Maxwells have been rained on, snowed on, and put to every kind of a rough and tumble test that time and use can give a car—and that's what we mean by the "Acid Test."

If you have any neighbors among

these 38,000 happy owners, ask them to tell you all about their experience with their Maxwells.

If you don't happen to know any neighbors who own Maxwells, here are a few facts to think about—things to consider—then you can come in and see this "Wonder Car" and add up these facts for yourself.

But don't forget this—the Maxwell we will show you is an exact duplicate of these 38,000 tried and true Maxwells that have stood the rough and tumble "Acid Test."

And Here Are Some Vital Points to Think Of

Satisfaction and Service is a Notable

To the automobile owner satisfaction and service mean a car of beauty, refinement and comfort combined. One that possesses the many conveniences, is easy and simple to operate; properly designed and constructed of the best materials and whose operation cost is very low, is waste motor car efficiency and maximum service.

All This Has Been Accomplished in the Maxwell

Through the high ideals and standards, wonderful engineering genius, remarkable resources and the accumulated experience gained from years of automobile experience, the Maxwell organization

here accomplished what a few years ago many said was impossible.

The Maxwell is Not the Result of an Experiment

It was not luck or the result of an experiment on the part of the Maxwell organization that made the Maxwell of today possible. Able engineers spent months designing this powerful, efficient, light-weight car. The best metallurgists in the world's famous laboratory (the Maxwell's own plant) tested materials and formulated new heat treatment that gave this car a remarkable light weight and yet the great strength which it possesses and which stands all the abuse heaped upon owner-driven cars.

It was real genius that gave to the Maxwell the power motor that enables Maxwell owners to go wherever four wheels will travel, over all roads, up all grades, through any sand, any mud.

Beauty and Comfort as well as Strength

And Maxwell builders added to this "wonder car" not only all the conveniences, power and durability, but also the refinements and beautiful lines of the much higher priced cars. Pure stream line, crown fenders, wire upholstery and all the little details that make Maxwell owners proud of their car.

Every Feature of Mechanical Construction

Every feature of mechanical construction that is to be found in cars selling at many times its price

will be found in the Maxwell. And in addition there are many mechanical features that are strictly of Maxwell design. How we have improved the lamp, made them rust-proof by using extra brines and eliminated the hinges, made them rust-proof, easy to clean and adaptable to use in any desired position: the manner in which we have protected one of the best radiators that money can buy from the many twists and strains of the car, in fact, constructed a full cooling radiator—the way in which Maxwell has provided for proper lubrication and thorough cooling of the motor and has given one square inch of braking surface for every twelve pounds of weight; how our engineers have equipped Maxwell cars with a spring tension fan that adjusts itself to any pressure on the belt, makes the "Wonder."

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day
